Yorkshire and the Humber is one of the nine official regions of England at the first level of ITL for statistical purposes. It is one of the three regions covering Northern England, alongside the North West England and North East England regions, and covers the historic and cultural Yorkshire area.

Yorkshire and the Humber is made up of the counties of East Riding of Yorkshire, North Yorkshire (excluding areas in the Tees Valley which are instead part of North East England), South Yorkshire, West Yorkshire, and the districts of North Lincolnshire and North East Lincolnshire that are in the county of Lincolnshire (with the rest of the county being within the East Midlands). The population of Yorkshire and the Humber in 2021 was 5,480,774 with its largest settlements being Leeds, Sheffield,...

English inventions and discoveries are objects, processes or techniques invented, innovated or discovered, partially or entirely, in England by a person from England. Often, things discovered for the first time are also called inventions and in many cases, there is no clear line between the two. Nonetheless, science and technology in England continued to develop rapidly in absolute terms. Furthermore, according to a Japanese research firm, over 40% of the world's inventions and discoveries were made in the UK, followed by France with 24% of the world's inventions and discoveries made in France and followed by the US with 20%.

The following is a list of inventions, innovations or discoveries known or generally recognised to be English.

Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency. A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. You can use the list to generate your own lists in whatever language you're learning and to test yourself.
