

Geometry Word Problems 4th Grade

Word Problems, Grade 4

Spectrum Word Problems for grade 4 includes practice for essential math skills, such as real world applications, multi-step word problems, fractions, decimals, geometry, preparing for algebra and much more. Spectrum(R) Word Problems supplement to classroom work and proficiency test preparation. The series provides examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards. Word problem practice is provided for essential math skills, such as fractions, decimals, percents, metric and customary measurement, graphs and probability, and preparing for algebra and more.

Math Word Problems 4th Grade

Math 2 Master Word Problems provides children in grade 4, who are struggling with these concepts, additional instruction and practice. This 32 page workbook features easy-to-understand directions, examples, and strategies with colorful pages and a complete answer key. The first of its kind! Our Math 2 Master series offers children in grades 3 to 6 instruction and practice in specific math skills and concepts. Featuring 12 titles that cover key mathematical concepts that children struggle with including fractions, decimals, percents, algebra, and geometry. This series helps children develop confidence and the skills needed to succeed in the classroom!

Word Problems

Spectrum(R) Critical Thinking for Math for fourth grade helps children understand concepts such as: -geometry -

rounding -multiplication and division -addition and subtraction -fractions and decimals Spectrum Critical Thinking for Math helps fourth graders improve problem-solving skills. Filled with math reasoning activities, word problems, and detailed instructions, Spectrum Critical Thinking for Math guides children through problem-solving strategies and real-world application. This series includes a testing section to help learners retain information and an answer key for insight into various strategies. The best-selling Spectrum brand supports educational success every step of the way with comprehensive, standards-based workbooks for a variety of subjects, grade levels, and needs. All workbooks, whether test prep or subject-specific, reinforce the skills and standards children learn in today's classroom, making Spectrum the best workbooks to help your child stay ahead!

Spectrum Critical Thinking for Math, Grade 4

Teach students how to decipher and easily solve word problems. The exercises include addition, subtraction, multiplication, division, graphing, fractions, measurement, area and perimeter, decimals, percentages, money values, as well as time. Special emphasis on multistep problems. Supports NCTM standards.

Word Problems

Unleash Your Child's Mathematical Skills with Grade 4 Math Word Problems Workbook! If you're on the hunt for a detailed guide to assist your child in solving fourth-grade math word problems, then Mastering Grade 4 Math Word Problems is the workbook you need! This inclusive math workbook is meticulously designed to impart essential math skills such as multiplication, division, basic fractions, and even introductory geometry, through a plethora of problem-solving activities that are as enjoyable as they are educational. With a systematic progression, kids are introduced to a broad spectrum of word problems that ignite critical thinking and assist them in developing the skills imperative for math success in the classroom and beyond. Your ideal partner for mastering word problems, this resource enhances students' problem-solving abilities as they engage in meaningful, real-world math practice.

Compliant with the current math standards and expectations, the word problems provide continuous spiral review of math concepts, offering students practice with grade-level math notions such as multiplication, division, fractions, basic algebraic understanding, and more. Why Students Adore this 4th Grade Math Book: Filled with engaging and educational math activities designed specifically for fourth-grade students. Facilitates a step-by-step progression, introducing a broad array of word problems that encourage critical thinking. Fully compliant with current math standards and expectations, ensuring a consistent spiral review of math concepts. Provides ample opportunities for students to develop essential math skills like multiplication, division, basic fractions, introductory geometry, and more through problem-solving activities. The workbook assists in the practical application of math skills, teaching students not only how to perform mathematical operations but also how to apply them in real-world scenarios. Helps in boosting reading comprehension skills as children learn to interpret and solve word problems. By equipping students with these important skills, the workbook sets them up for success not only in their current grade but also for advanced math in the future. The tracking tools included in the workbook allow for monitoring progress and identifying areas where additional practice may be beneficial. Perfect as a supplemental learning tool for use in the classroom or at home, under the guidance of educators or parents. Word problems demand advanced thinking abilities, and this workbook educates children not just to multiply and divide, but also to apply these skills in real-life situations. By teaching how to interpret a math problem and determine if it requires multiplication or division, children develop the skills required to solve word problems correctly. Whether you're an educator or a parent, Mastering Grade 4 Math Word Problems is the optimal resource for nurturing your student's development of the skills they need to excel in math. With engaging activities, systematic progression, and extensive tracking tools, this book is certain to empower your student to tackle even the most challenging math word problems with ease. Visit EffortlessMath.com for additional online math practice opportunities.

Mastering Grade 4 Math Word Problems

\ "100 Word Problems : Grade 4 Math Workbook\" is an exclusive BrainChimp book packed with carefully selected exercises to stimulate your child's Brain and develop a keen interest in the practical application of Math skills. These Math Word Problems help children practice and reinforce the essential math skills they learn in school. Regular targeted practice is a proven method of helping children reach their maximum potential and perform better on important standardized tests. The aim of this book is to develop logic and reasoning skills while building better math problem-solving skills and improving self-confidence. The BrainChimp series of books are designed to stimulate the minds of children and empower them with the skills to be more successful in school and beyond. Answer Key is included to measure progress and guide practice. Features:

- Word Problems for children Grade-5 (Ages 10-11).
- 100 carefully selected word problems.
- Detailed Answers in a separate Answer Key Section.
- Work area for every problem to work out the solutions.

Skills Covered:

- Addition
- Subtraction
- Multiplication
- Division
- Geometry
- Money
- Time
- Fractions
- Decimals
- Logic
- And much more

100 Word Problems

In this great addition to the MATH BUSTERS WORD PROBLEMS series, veteran math author Rebecca Wingard-Nelson teaches students how to conquer tricky geometry word problems using examples from a teen's modern life. Word problems don't have to be a problem! Free downloadable worksheets available for this book on www.enslow.com.

Geometry Word Problems

Spectrum(R) Word Problems for grade 7 includes practice for essential math skills, such as real world applications, multi-step word problems, variables, ratio and proportion, perimeter, area and volume, percents, statistics and more. Spectrum(R) Word Problems supplement to classroom work and proficiency test preparation. The series provides examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an

essential part of the Common Core State Standards. Word problem practice is provided for essential math skills, such as fractions, decimals, percents, metric and customary measurement, graphs and probability, and preparing for algebra and more.

Word Problems, Grade 7

Math Mammoth Grade 4-A worktext (Canadian version) is the student worktext for the first half of the 4th grade math, and part of Math Mammoth complete curriculum for fourth grade. This book starts out with a review of addition and subtraction, patterns, and graphs. We illustrate word problems with bar diagrams and study finding missing addends, which teaches algebraic thinking. Children also learn addition and subtraction terminology, the order of operations, and statistical graphs. Next come large numbers-up to millions, and the place value concept. At first the student reviews thousands and some mental math with them. Next are presented numbers up to one million, calculations with them, the concept of place value and comparing. In the end of the chapter we find out more about millions and an introduction to multiples of 10, 100, and 1000. The third chapter is all about multiplication. After briefly reviewing the concept and the times tables, the focus is on learning multi-digit multiplication (multiplication algorithm). The children also learn why it works when they multiply in parts. We also study the order of operations again, touch on proportional reasoning, and do more money and change related word problems. The last chapter in the 4-A worktext is about time, temperature, length, weight, and volume. Students will learn to solve more complex problems using various measuring units and to convert between measuring units. Features Math Mammoth focuses on conceptual understanding. It explains the \"WHY\"

Word Problems

Word Problems, Grade 5 Homework Booklet will help teach math skills like fractions, money, and mixed numbers using word problems. Students will strengthen their reading skills as they learn basic math operations and critical thinking skills.

Math Mammoth Grade 4-A Worktext, Canadian Version

Studies show that an increase in word knowledge while young not only leads to better reading comprehension but also encourages self-confidence and independence. Allow your child to find the missing words on his/her own. Be amazed at the level of concentration they will show as well as the perseverance to understand the meaning of the words they find. Grab a copy of this book today, enjoy reading tomorrow!

Word Problems, Grade 4

This is a 4th grade math workbook for daily math practice grade 4 which is designed to help you master your common core math grade 4 in 90 days. With daily exercises from basic math to children's advanced math in operations and algebraic thinking, number and operations in base ten, fractions, measurement and data, and geometry, many have gained better results with their math tests using this basic math workbook. How to use this 4th grade math workbook? The math practice problems are listed in accordance with Common Core Math Grade 4 Guidelines. You can start practicing one exercise a day; from Day 1 to Day 90. If preferred, you can choose to work on the exercise of your choice. The Answer Key for all the exercises are listed at the end of the workbook. Have fun working on the exercises with your parents or your friends. What you will get from this 4th grade math workbook? Focused skill practice for 4th grade math. Excellent resources both for parents and students for daily math practice. Aligned with the Common Core Math Grade 4. Ideal for homeschool, holiday activity, math practice problems, or math test grade 4. Straightforward and easy to understand instruction. Various types of questions including, 4th grade math word problems, 4th grade math decimals and fractions, 4th grade math multiplication, 4th grade math division, and 4th grade math geometry and measurement. Who is it for? Students in grade 4. Children aged between 9 - 10 years old. Practice Makes Progress.

Word Problems Grade 4

Math Mammoth Foundational Word Problems is a workbook

intended for students in 3rd grade and above that need more practice with word problems. I especially aim to help students in 4th-7th grades who have trouble with word problems and who need to "go back to the beginning"

Math Workbook Grade 4

This is the student worktext for the first half of mathematics studies for 4th grade. It covers the following topics: addition, subtraction, patterns, graphs, large numbers, multi-digit multiplication, time, and measurement.

Math Mammoth Foundational Word Problems

Geometry & Measurement Workbooks introduce important foundational math concepts gradually, which allows children to feel confident and eager to learn more. Our fun and colorful activities inspire a love of math.

Math Mammoth Grade 4-A Worktext

This Word Problems Grade 4 is everything your kids need to learning a math word problems with answer keys. Aligned with common core math for 4th grade word problems. TABLE OF CONTENT IN WORD PROBLEMS GRADE 4 WORKBOOK Part1:Multiplying and dividing (4.OA.2) Part2: Multistep with remainder (4.OA.3) Part3: Adding and subtracting fraction with same denominator (4.NF.3) Part4: Multiply fractions with whole number (4.NF.4) Part5: Distance, time, volume, mass, money, unit (4.MD.2) DETAILS OF 4TH GRADE WORD PROBLEMS : - Grade: 4th, Homeschool - Matte Cover (Softcover) - 8.5x11 (Inches Sized) - 96 Pages For learning 4th grade word problems workbook - Please note: Though the images are provided in color, they print well in black and white. Thank you for watching word problem grade 4 and don't forget to come back and leave a comment! Cheers! Biinyin EW.

Grade 4 Geometry & Measurement

A colorful workbook to help children learn addition and

subtraction using the Math Mastery approach! It's time to master the world of math with this brand new workbook developed by experts to cover all the essential skills for children in the first stages of their math journey. Specifically designed for children aged 9-10, this math exercise book can gently help your child develop knowledge of engaging number activities, word problems, and mathematical investigations, using a range of different methods. Let Math – No Problem! open your eyes to the wonderful world of numbers! So what are you waiting for? Dive straight in to discover: - Topics include whole number operations (+-x÷), fractions and decimals, word problems, money, measurement, different mental strategies, problem-solving. - Character-led learning with fun and friendly illustrations. - Comprehensive and thorough coverage of key concepts. - Helpful hints for extra practice. Heard of Math Mastery but don't know where to begin? Don't worry, DK has got you covered! Math Mastery is a transformational approach to teaching mathematics that was developed in Singapore and is now used around the world, including in thousands of schools across the US. Children are taught multiple methods to solve math problems, enabling them to gain a thorough and adaptable understanding of topics, making it easier for them to apply their knowledge to different scenarios. Each topic is studied in depth to develop a secure understanding of math concepts. This leads to greater progress in math learning, as topics are well understood and therefore don't need to be revised in great detail, meaning each new concept builds on prior learning. Based on this widely successful approach, this wonderful workbook is full of top tips led by appealing characters who offer useful guidance to parents and children alike with the goal of making learning math both accessible and interesting. This workbook is part of a new series developed in partnership with the award-winning educational publisher Math – No Problem! The books encourage a deep knowledge of core math concepts without fostering a reliance on memorization or rote learning. A must-have math book for children aged 9-10 at a Grade 4 level, as well as for adults who wish to become more familiar with math taught in schools, to better support their children at home. From problem solving with words, to practising fractions, this helpful workbook covers it all while incorporating an inclusive approach which builds self-confidence so that no child feels they 'can't do math'. At DK, we believe in the power of discovery. So why not explore the rest of the workbooks in our Math – No Problem!

Master Math At Home series? Each workbook can be bought individually or as part of a collection, specifically targeted to early learners aged 9-10 at a Grade 4 level. Multiply like a magician with Math – No Problem! Multiplication and Division, Grade 4 Ages 9-10 or join the geometry journey with Math – No Problem! Geometry and Shape, Grade 4 Ages 9-10. It's as easy as 1, 2, 3!

Word Problems Grade 4: Math Word Problems Grade 4 - Multiply and Divide with Remainder, Fraction, Distance, Time and Volume for 4th Grade Math Workbook (Aligned with Common Core Standard)

Word Problems, Grade 5 Homework Booklet will help teach math skills like fractions, money, and mixed numbers using word problems. Students will strengthen their reading skills as they learn basic math operations and critical thinking skills.

Math - No Problem! Extra Challenges, Grade 4 Ages 9-10

Math Mammoth Grade 4-B worktext is the student book for the latter half of grade 4 mathematics studies. This is the full color version. Being a worktext means that the book contains both the instruction and all the exercises and problems. In this book, Math Mammoth Grade 4-B, we first study division. The focus is on learning long division, using division in word problems, and studying factors and divisibility. In the chapter on geometry, we first review area and perimeter, and then concentrate on the topic of angles. Students measure and draw angles, solve simple unknown angle problems, and classify triangles according to their angles. They also study parallel and perpendicular lines. Fractions and decimals are presented last. These two chapters teach and practice only some of the operations with fractions and decimals. The focus is still on building conceptual understanding of these concepts as a foundation towards 5th grade, when fraction and decimal arithmetic will be in focus.

Word Problems Grade 5

Spectrum(R) Word Problems for grade 8, includes focused practice for essential math skills. --Skills include: --
*Real world applications --*Multi-step word problems --
*Whole numbers, decimals, and fractions --*Ratio and proportion --*Percents and interest --*Metric and customary measurement --*Graphs, probability, and statistics --
*Geometry --*Perimeter, area, and volume --*Algebra --
Spectrum(R) Word Problems workbooks supplement classroom work and proficiency test preparation. The workbooks provide examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards, making it a perfect supplement at home or school.

Math Mammoth Grade 4-B Worktext

Imagine that you assign a math problem and your students, instead of getting discouraged after not solving it on the first attempt, start working harder--as if on a quest to figure out the answer. They talk to each other and enthusiastically share their discoveries. What could possibly make this fantastic scenario come true? The answer is: the Open Middle math problems and strategies in this book. Open Middle Math by Robert Kaplinsky gives middle and high school teachers the problems and planning guidance that will encourage students to see mathematics in an entirely different light. These challenging and rewarding Open Middle math problems will help you see your students build genuine conceptual understanding, perseverance, and creativity. Inside, you'll learn how to: Implement Open Middle math problems that are simultaneously accessible for both students who are struggling and those looking for more challenge. Select and create Open Middle math problems that will help you detect students' misconceptions and strengthen their conceptual understanding. Prepare for and facilitate powerful classroom conversations using Open Middle math problems. Access resources that will help you continue learning beyond this book. With these practical and intuitive strategies, extensive resources, and Robert's own stories about his journey learning to use Open Middle math problems successfully, you will be able to support,

challenge, and motivate all your students.

Word Problems, Grade 8

Quality, convenient materials to help gauge basic math skills: numbers and computation, problem solving, geometry and measurement, and graphing, statistics, and probability.

Open Middle Math

Spectrum(R) Word Problems for grade 5 includes practice for essential math skills, such as real world applications, multi-step word problems, fractions, decimals, metric and measurement, graphs and probability, geometry and preparing for algebra. Spectrum(R) Word Problems supplement to classroom work and proficiency test preparation. The series provides examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards. Word problem practice is provided for essential math skills, such as fractions, decimals, percents, metric and customary measurement, graphs and probability, and preparing for algebra and more.

Fourth Grade Book of Math Tests

This is the chapter slice \"Word Problems Vol. 4 Gr. PK-2\" from the full lesson plan \"Geometry\" For grades PK-2, our resource meets the geometry concepts addressed by the NCTM standards and encourages the students to learn and review the concepts in unique ways. Each task sheet is organized around a central problem taken from real-life experiences of the students. The pages of this resource contain a variety in terms of levels of difficulty and content so as to provide students with a variety of differentiated learning opportunities. Included in our resource are activities on two- and three-dimensional shapes, fractions, coordinate points, and composing and decomposing shapes. The task sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are assessment and standards

rubrics, review sheets, color activity posters and bonus worksheets. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.

Word Problems, Grade 5

Spectrum(R) Word Problems for grade 6, includes focused practice for essential math skills. --Skills include: --
*Real world applications --*Multi-step word problems --
*Fractions, decimals, and percents --*Metric and customary measurement --*Graphs, probability, and statistics --
*Geometry --Spectrum(R) Word Problems workbooks supplement classroom work and proficiency test preparation. The workbooks provide examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards, making it a perfect supplement at home or school.

Geometry: Word Problems Vol. 4 Gr. PK-2

Give students that extra boost they need to acquire important concepts in specific areas of math. The goal of these How to books is to provide the information and practice necessary to master the math skills established by the National Council of Teachers of Mathematics. Each book is divided into units containing concepts, rules, terms, and formulas, followed by corresponding practice pages.

Word Problems, Grade 6

This is the chapter slice \"Word Problems Vol. 4 Gr. 3-5\" from the full lesson plan \"Geometry\" For grades 3-5, our resource meets the geometry concepts addressed by the NCTM standards and encourages the students to learn and review the concepts in unique ways. Each task sheet is organized around a central problem taken from real-life experiences of the students. The pages of this resource contain a variety in terms of levels of difficulty and content so as to provide students with a variety of

differentiated learning opportunities. Included in our resource are activities on two- and three-dimensional shapes, fractions, coordinate points, and composing and decomposing shapes. The task sheets offer space for reflection, and opportunity for the appropriate use of technology. Also contained are assessment and standards rubrics, review sheets, color activity posters and bonus worksheets. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy, STEM, and NCTM standards.

How to Solve Word Problems, Grades 6-8

Spectrum(R) Word Problems for grade 3, includes focused practice for essential math skills. --Skills include: --
*Real world applications --*Multi-step word problems --
*Fractions --*Metric and customary measurement --*Money, time, and calendar --*Graphs and probability --*Geometry --
*Preparing for algebra --Spectrum(R) Word Problems workbooks supplement classroom work and proficiency test preparation. The workbooks provide examples of how the math skills students learn in school apply to everyday life with challenging, multi-step word problems. It features practice with word problems that are an essential part of the Common Core State Standards, making it a perfect supplement at home or school.

Geometry: Word Problems Vol. 4 Gr. 3-5

Word problems for mathematics students in grades 3-5.

Word Problems, Grade 3

Quick, easy, effective activities support standards and help students improve skills they need for success in testing.

Decoding Math Word Problems - Grade 4

Kumon's Word Problems Workbooks develop the skills

necessary for children's success using math inside and outside the classroom. Our unique step-by-step progression introduces children to a wide variety of word problems that inspire critical thinking. Grade 4 Word Problems focuses on word problems that cover the following topics Division Decimals Using Formulas Mixed Calculations Tables and Graphs

Math, Grade 4

MUST-KNOW MATH SKILLS: The Ultimate Grade 4 Math Workbook features must-know math skills for 4th graders, ages 9-10. Help your child learn and practice essential math topics, such as addition, subtraction, multiplication, division, fractions, decimals, measurement, algebra, and geometry!

DELIGHTFUL & FUN: Pages bring math to life with carefully-crafted problems, delightful images, and a variety of fun activities!

PRACTICE ANYWHERE: With this math book, your child can practice wherever, whenever, and solidify their understanding of key math concepts. These workbooks unlock online learning resources with specific skill

FOURTH GRADE MATH TOPICS: Your student will be mastering essential math and arithmetic skills including word problems, place value, expanded form, word names for numbers, numbers to 1 million, comparing and ordering numbers, rounding numbers, problem solving, estimating sums and differences, estimating products, factors and multiples, prime and composite numbers, number patterns, and the associative and distributive properties. This is one of the best math books for 4th graders, as it extensively covers multiplication and division including multiplying by 0 through 12, multiplying and dividing multiples of 10, multi-digit multiplication, properties of multiplication, modeling multiplication and division, dividing by 1 through 12, estimating quotients, multi-digit division, division with remainders, properties of division, and divisibility. Fourth graders will find fraction help including modeling fractions, identifying equivalent fractions, comparing fractions, finding the least common denominator, ordering fractions, adding and subtracting fractions, converting between mixed numbers and improper fractions, adding and subtracting mixed numbers with regrouping, multiplying fractions, mixed fraction operations, and understanding and comparing equivalent fractions and decimals.

Grade 4 Word Problems

Spectrum Math for grade 4 keeps kids at the top of their math game using progressive practice, math in everyday settings, and tests to monitor progress. The math workbook covers multiplication, division, fractions, geometric figures, and preparing for algebra. A best-selling series for well over 15 years, Spectrum still leads the way because it works. It works for parents who want to give their child a leg up in math. It works for teachers who want their students to meet—and surpass—learning goals. And it works to help children build confidence and advance their skills. No matter what subject or grade, Spectrum provides thorough practice and focused instruction to support student success.

Fourth Grade Math Activity Book

Having a problem with word problems? Author Rebecca Wingard-Nelson introduces simple ways to tackle tricky word problems with algebra. Real world examples make the book easy to read and are great for students to use on their own, or with parents, teachers, or tutors. Free downloadable worksheets are available on www.enslow.com.

Spectrum Math Workbook, Grade 4

A full school year of math word and story problems with a comprehensive inculcation of state math standards for Minnesota. Theory for the problems includes: math discussion, math reasoning, mathematics relevant to the prairie states (like the Dakotas, Minnesota, Iowa, and more), and math relevant to a great many real-life occurrences. Thirty-eight weeks of problems designed to be presented via document camera, or photocopied for the student use -with complete permission -for one fourth grade team per school, please. Five daily word problems per week of classes, tailor-made for fourth graders, and enough problems for two full semesters. The first item of the week caters to students on or below-level, while the fifth problem of the week is geared toward challenge-level and independent-level workers. Answer key at back for quick reference.

Algebra Word Problems

Word Problems 4th Grade : Word Problems Grade 4 Daily Math Puzzlers Level A (and Webinar) for 2nd, 3rd, 4th, Homeschool Grade : What if you could significantly improve your students' problem-solving abilities in just 15 minutes a day? What if your students actually began to look forward to those 15 minutes of problem-solving and even asked you for MORE???? No need to wonder . . . Word Problem Grade 4 Daily Math Puzzlers is that program! These math problems were field-tested by dozens of teachers all over the world, and their kids were actually asking for more! The program helped students develop confidence in their problem-solving abilities. As a teacher, you'll enjoy the step-by-step instructions for reviewing calculator skills, word problems for grade 4 teaching problem-solving steps and strategies, and providing a variety of challenging and engaging math problems. Please download the preview and examine it carefully to see if this level is right for you. Word Problems 4 Daily Math Puzzlers Level A can be used with students in grades 2 - 4 depending on their skill level. Many thanks for stopping by and taking a look! Sincerely, Enjoy :) All Educate School

Word Problems 4th Grade

Ready-to-Use Math Proficiency Lessons and Activities 4th Grade Level offers teachers a collection of 40 key objectives that help students master the standard mathematics curriculum at the 4th grade level. Each of these objectives includes three developmental activities. Activity 1 provides physical models and the materials that are described in detail, including pattern sheets, building mats, and worksheets with answer keys. Activity 2 uses pictorial models such as pictures or diagrams that help students retain and assess what they have learned. Activity 3 encourages exploration and application of newly learned lessons. Worksheet items for this third stage give students more opportunities to prepare for the testing experience. For quick access and easy use, all materials are organized into five major sections and printed in a big 8 1/2" x 11" lay-flat format for easy photocopying. The following is just a small sample of the many activities featured in each section.

1. NUMERATION AND NUMBER PROPERTIES: Identify odd and even whole numbers . . . Represent a proper fraction with various models (physical and pictorial) . . . Find equivalent fractions that are less than one.
2. COMPUTATIONAL ALGORITHMS AND ESTIMATION IN PROBLEM SOLVING: Add or subtract whole numbers (two-digit to four-digit) to solve a word problem . . . Divide two-digit or three-digit whole numbers by one-digit whole numbers (as divisors) to solve a single-stepped word problem . . . Solve multistep word problems, using addition, subtraction, multiplication, or division of whole numbers.
3. GRAPHING, STATISTICS, AND PROBABILITY: Complete a two-column (or two-row) numerical table, using recognized patterns in the column (or row) entries, in order to solve word problems . . . Find the mean of a set of data . . . Identify possible two-member or three-member outcomes of a situation (multistaged experiment without order).
4. GEOMETRY AND LOGICAL OR SPATIAL REASONING: Make generalizations from geometric sets of examples and nonexamples . . . Identify polygons by their generic names . . . Apply logical reasoning to solve a word problem (with or without computation).
5. MEASUREMENT: Estimate the length of an object, using an appropriate measuring unit (inch, foot, yard, millimeter, centimeter, meter) . . . Solve problems that involve the

passing of time and the notation for time on a clock . . .
Find the area of a rectangular region.
