LG G4

The LG G4 is an Android smartphone developed by LG Electronics as part of the LG G series. Unveiled on 28 April 2015 and first released in South Korea

The LG G4 is an Android smartphone developed by LG Electronics as part of the LG G series. Unveiled on 28 April 2015 and first released in South Korea on 29 April 2015 and widely released in June 2015, as the successor to 2014's G3. The G4 is primarily an evolution of the G3, with revisions to its overall design, display and camera.

The G4 received mixed to positive reviews; while praising the G4's display quality, camera, and overall performance, critics characterized the G4 as being a robust device that did not contain enough substantial changes or innovation over its predecessor to make the device stand out against its major competitors, but could appeal to power users needing a smartphone with expandable storage and a removable battery due to the exclusion of these features from its main...

LG Arena (KM900)

The LG-KM900, or LG Arena, is an LG Electronics flagship multimedia phone for Q1 2009, succeeded by the LG GD900. Announced at the Mobile World Congress

The LG-KM900, or LG Arena, is an LG Electronics flagship multimedia phone for Q1 2009, succeeded by the LG GD900. Announced at the Mobile World Congress on February 16, 2009, the KM900 is the first phone to feature LG's new 3D S-Class user interface.

The S-Class is a capacitive touch-based 3D UI that lays out menus as if they were on a film reel, enabling the user to drag a finger across the reels to scroll through the available options. Its cube layout provides four home screens that can be customised with different shortcuts. The UI reacts to the orientation of the Arena, switching between portrait and landscape modes.

The Arena is a metal-cased device, available in silver, black Titanium & pink colour schemes. It has a 3-inch WVGA tempered glass multi-touch

capable touchscreen with a resolution...

LG V20

LG V20 is an Android phablet smartphone manufactured by LG Electronics, in its LG V series, succeeding the LG V10 released in 2015. Unveiled on September 6

LG V20 is an Android phablet smartphone manufactured by LG Electronics, in its LG V series, succeeding the LG V10 released in 2015. Unveiled on September 6, 2016, it was the first phone with the Android Nougat operating system. Like the V10, the V20 has a secondary display panel near the top of the device that can display additional messages and controls, and a quad DAC for audio. The V20 has a user-replaceable battery, unlike its successor, the LG V30, unveiled on 31 August 2017.

LG V series

The LG V series was a line of high-end Android devices produced by LG Electronics. This series is slated above the LG G series. The first phone in the V series, the LG V10, was unveiled in September 2015, the first smartphone to have the multiples of 10. The last in the series is the LG V60 ThinQ released in March 2020.

LG Dare

The LG VX9700 (or "LG Dare") is a CDMA touch screen cell phone made by LG. The phone features touch screen navigation, a 3.2-megapixel camera with face

The LG VX9700 (or "LG Dare") is a CDMA touch screen cell phone made by LG. The phone features touch screen navigation, a 3.2-megapixel camera with face recognition and many photo enhancing tools, a camcorder, customizable shortcut menus, handwriting recognition, and a multitask music player. The LG Dare is the third phone to have Rev. A technology - after the Sprint Mogul and Touch.

In the US, the Dare was released online June 26, 2008 and was released in Verizon Wireless stores on July 3, 2008. The device is available in Canada on the Telus Mobility network, as the LG LG9700, using the same model name (Dare) as the U.S. market device. The only difference

between the Verizon Wireless and Telus devices is that the Verizon Wireless version of the device includes a black front face with a black...

LG V10

The LG V10 is an Android phablet smartphone manufactured by LG Electronics as part of the LG V series. Announced in September 2015 and released in October

The LG V10 is an Android phablet smartphone manufactured by LG Electronics as part of the LG V series. Announced in September 2015 and released in October 2015, the device shares many similarities with the earlier LG G4. Its main feature is a customizable second display above the primary display, which, among other uses, shows notifications and music controls without waking up the primary display. In 2016, its successor, the LG V20 was released. Despite its innovative design, the V10 faced criticism for durability issues, including reports of bootloop failures and screen detachment over time.

LG Optimus 7

the phone can hang at the LG start-up logo, necessitating the user to reset the device manually. LG Quantum Windows Phone LG Quantum HTC HD7 Samsung Omnia

The LG Optimus 7 (also known as the LG-E900) is a slate smartphone which runs Microsoft's Windows Phone operating system. The Optimus 7 is part of the first-generation Windows Phone line-up launched in October 2010.

LG Cosmos

The LG Cosmos (LG VN250) is a slider mobile phone made by LG Electronics. The phone is available in both a touch screen and non-touch screen model. It

The LG Cosmos (LG VN250) is a slider mobile phone made by LG Electronics. The phone is available in both a touch screen and non-touch screen model. It became available on Verizon Wireless in Q1 2010, and was replaced by LG Cosmos 2 in July 2011. The phone has 1.3-megapixel camera, VZ Navigator, Voicemail, Media Center, QWERTY keyboard and SMS and MMS messaging.

LG G8 ThinQ
