Linear programming (LP), also called linear optimization, is a method to achieve the best outcome (such as maximum profit or lowest cost) in a mathematical model whose requirements and objective are represented by linear relationships. Linear programming is a special case of mathematical programming (also known as mathematical optimization).

More formally, linear programming is a technique for the optimization of a linear objective function, subject to linear equality and linear inequality constraints. Its feasible region is a convex polytope, which is a set defined as the intersection of finitely many half spaces, each of which is defined by a linear inequality. Its objective function is a real-valued affine (linear) function defined on this polytope. A linear programming algorithm finds a...

Python (programming language)

supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. Guido van Rossum

Python is a high-level, general-purpose programming language. Its design philosophy emphasizes code readability with the use of significant indentation.

Python is dynamically type-checked and garbage-collected. It supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming.

Guido van Rossum began working on Python in the late 1980s as a successor to the ABC programming language. Python 3.0, released in 2008, was a major revision not completely backward-compatible with earlier versions. Recent versions, such as Python 3.12, have added capabilities and keywords for typing (and more; e.g. increasing speed); helping with (optional) static typing. Currently only versions in the 3.x series are supported.

Python consistently ranks...

Montreal, Quebec. Wendel Clark was selected first overall by the Toronto Maple Leafs. On June 13, 1985, the NHL board of governors voted 17-4 in favour

The 1985-86 NHL season was the 69th season of the National Hockey League. This season saw the league's Board of Governors introduce the Presidents' Trophy, which would go to the team with the best overall record in the NHL regular season. The Edmonton Oilers would be the first winners of this award.

The Montreal Canadiens defeated the Calgary Flames four games to one in the final series to win the Stanley Cup.

Julia is a dynamic general-purpose programming language. As a high-level language, distinctive aspects of Julia's design include a type system with parametric polymorphism, the use of multiple dispatch as a core programming paradigm, just-in-time (JIT) compilation and a parallel garbage collection implementation. Notably Julia does not support classes with encapsulated methods but instead relies on the types of all of a function's arguments to determine which method will be called.

By default, Julia is run similarly to scripting languages, using its runtime, and allows for interactions, but Julia programs/source code can also optionally be sent to users in one ready-to-install/run file, which can be made quickly, not needing anything preinstalled.

Julia programs can reuse libraries from other...

Gary R. Roberts (born May 23, 1966) is a Canadian former professional ice hockey player who played 21 seasons in the National Hockey League (NHL) for the Calgary Flames, Carolina Hurricanes, Toronto Maple Leafs, Florida Panthers, Pittsburgh Penguins, and Tampa Bay Lightning. Renowned for his physical fitness during his career, Roberts has become a high performance trainer for players at all levels of the sport.

Roberts was a member of Memorial Cup and Minto Cup winning teams as Canadian junior hockey and box lacrosse champions, respectively. He was a first round selection of the Calgary Flames, 12th overall, at the 1984 NHL Entry Draft and

played ten seasons in Calgary. Roberts was a member of the Flames' 1989 Stanley Cup championship team and made two of his three NHL All-Star Game appearances...

broadcaster, are required to broadcast a wide variety of programming. As opposed to Channel 4, whose programming remit targets the fringes of society and ranges

Channel 5 airs a wide variety of programming that covers various genres and themes, with programmes about farming, trains and royalty being popular.

The channel is notable for its travel and holiday shows, whether presented by comedians such as Susan Calman and Alexander Armstrong or whether they are programmes in a fly-on-the-wall reality format like *Allo Allo! Brits in France* or the *Bargain Loving Brits...* series. The channel has also become associated with a number of people and programmes from Yorkshire with shows including Jane McDonald, *The Yorkshire Vet's* Julian Norton and shepherdess Amanda Owen, (the latter two also contributing to episodes of *This Week on the Farm*, filmed at Cannon Hall Farm in South Yorkshire).

Channel 5 is also notable for securing the rights to *Home and Away* in...
