Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency. A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. You can use the list to generate your own lists in whatever language you're learning and to test yourself.

F-16 Fighting Falcon[edit]

I have suggested this article as it is about an impressive and important vehicle and is a very well written article. User: Tom walker, 26/01/06 19:01 GMT

Object - A nice article, but see Convair B-36 for an example of a featured article on an aircraft. This one needs some references, and some sort of infobox to collect all the information in the section "Specifications" would also be a good idea (although I see Convair B-36 does not have one). Some section are rather list-y (again, compare the amount of prose in Convair B-36). -- ALoan (Talk) 20:22, 26 January 2006 (UTC)[reply]
