

How To Be Richer Smarter And Better Looking Than Your Parents Zac Bissonnette

How to Be Richer, Smarter, and Better-Looking Than Your Parents

Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of *Debt-Free U*—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, *Really Broke Housewives*, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

Debt-Free U

This book can save you more than \$100,000. These days, most people assume you need to pay a boatload of money for a quality college education. As a result, students and their parents are willing to go into years of debt and potentially sabotage their entire financial futures just to get a fancy name on their diploma. But Zac Bissonnette is walking proof that this assumption is not only false, but dangerous—a class con game designed to rip you off and doom your student to a post-graduation life of near poverty. From his unique double perspective—he's a personal finance expert (at Daily Finance) AND a current senior at the University of Massachusetts—Zac figured out how to get an outstanding education at a public college, without bankrupting his parents or taking on massive loans. Armed with his

personal knowledge, the latest data, and smart analysis, Zac takes on the sacred cows of the higher education establishment. He reveals why a lot of the conventional wisdom about choosing and financing college is not only wrong but hazardous to you and your child's financial future. You'll discover, for instance, that: * Student loans are NOT a necessary evil. Ordinary middle class families can-and must-find ways to avoid them, even without scholarships. * College \"rankings\" are useless-designed to sell magazines and generate hype. If you trust one of the major guides when picking a college, you face a potential financial disaster. * The elite graduate programs accept lots of people with non-elite bachelors degrees. So do America's most selective employers. The name on a diploma ultimately won't help your child have a more successful career or earn more money. Zac can prove every one of those bold assertions - and more. No matter what your current financial situation, he has a simple message for parents: \"RELAX! Your kid will be able to get a champagne education on a beer budget!\"

The Great Beanie Baby Bubble

In the annals of consumer crazes, nothing compares to Beanie Babies. With no advertising or big-box distribution, creator Ty Warner - an eccentric college dropout - become a billionaire in just three years. And it was all thanks to collectors. The end of the craze was just as swift and extremely devastating, with \"rare\" Beanie Babies deemed worthless as quickly as they'd once been deemed priceless. Bissonnette draws on hundreds of interviews (including a visit to a man who lives with his 40,000 Ty products and an in-prison interview with a guy who killed a coworker over a Beanie Baby debt) for the first book on the most extraordinary craze of the 1990s.

Raising Financially Confident Kids

It's natural to want your kids to have a secure future. But when it comes to teaching the next generation how to handle money, parents are failing. Still there is hope! Financial expert Mary Hunt shows parents how to raise kids who have a healthy relationship with money--even if the parents themselves have made financial mistakes along the way or are struggling financially right now. Drawing from solid statistics and her own hard-won knowledge and experience, Hunt helps parents protect their children from the financial pitfalls of easy credit, an attitude of entitlement, and our culture's chummy relationship with debt. From preschool through the teen years, every stage of a child's development is covered, including how to talk to them about money, how to help them start saving money and giving it away, and how to manage money wisely.

Good Advice from Bad People

The world is full of people telling you how to live your life. Sometimes the advice-givers fall ever-so-slightly short themselves. Bestselling author Zac Bissonnette has gathered more than seventy-five jaw-dropping gems, including risk-management advice from the man who triggered the world's largest hedge fund collapse and tips from gay-prostitute-patronizing pastor Ted Haggard on how to build a marriage that lasts a lifetime. The result will keep you smiling while you glean all the wisdom you need to build the life you want . . . if only you can follow it better than the people who gave it. • "When you know what you are talking about, others will follow you, because it's safe to follow you." —Lehman Brothers CEO Richard Fuld, 2006 • "I think the most important thing is restore a sense of idealism and end the cynicism." —future Illinois governor Rod Blagojevich, 2002 • "The day you take complete responsibility for yourself, the day you stop making any excuse, that's the day you start to the top." —O.J. Simpson, 1975

The Way of the Labyrinth

The first time Helen Curry walked a labyrinth she was moved to tears and then "was filled with peace and possibilities." Here, she shares her years of experience with labyrinth meditation and shows how others can find serenity and guidance by adopting this increasingly popular practice. Unlike mazes, which force choices and can create fear and confusion, labyrinths are designed to "embrace" and guide individuals through a calming, meditative walk on a single circular path. The Way of the Labyrinth includes meditations, prayers, questions for enhancing labyrinth walks, guidelines for ceremonies, instructions for finger meditations, and extensive resources. This enchanting, practical, and exquisitely packaged guide helps both novice and experienced readers enjoy the benefits of labyrinth meditation, from problem-solving to stress reduction to personal transformation. Includes a foreword by Jean Houston, the renowned author and leader in the field of humanistic psychology, who is considered the grandmother of the current labyrinth revival.

The Case for Marriage

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important

intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced— physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal www.broadwaybooks.com

The Index Card

"The newbie investor will not find a better guide to personal finance." —Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offu00adhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

Hacking Your Education

It's no secret that college doesn't prepare students for the real world. Student loan debt recently eclipsed credit card debt for the first time in history and now tops one trillion dollars. And the throngs of unemployed graduates chasing the same jobs makes us wonder whether there's a better way to "make it" in today's marketplace. There is—and Dale Stephens is proof of that. In *Hacking Your Education*, Stephens speaks to a new culture of "hackademics" who think college diplomas are antiquated. Stephens shows how he and dozens of others have hacked their education, and how you can, too. You don't need to be a genius or especially motivated to succeed outside school. The real requirements are much simpler: curiosity, confidence, and grit. *Hacking Your Education* offers valuable advice to current students as well as those who decided to skip college. Stephens teaches you to create opportunities for yourself and design your curriculum—inside or outside the classroom. Whether your dream is to travel the world, build a startup, or climb the corporate ladder, Stephens proves you can do it now, rather than waiting for life to start after "graduation" day.

The College Solution

"The College Solution helps readers look beyond over-hyped admission rankings to discover schools that offer a quality education at affordable prices. A Killing in Costumes

Stardom fades fast when you're on the line for murder, in this debut cozy mystery perfect for fans of Richard Osman and Jenn McKinlay. Jay Allan and Cindy Cooper were soap opera stars in the late '90s, a wholesome young husband-and-wife duo who combined musical talent with humor and charisma. When the truth about their sexual orientations came to light, their marriage and TV careers ended, but decades later they have remained friends. Together, they open Palm Springs' chicest movie memorabilia store, Hooray for Hollywood--but no customers and dwindling finances spell trouble. A Hail Mary arrives in the form of Yana Tosh, a ninety-year-old diva of the silver screen who has amassed a valuable collection of costumes and props and is looking to sell. But first, Jay and Cindy have to beat their competition, a vice president from a mega-auction house with ten times their resources. And when he winds up dead, they become prime suspects in the murder. With their freedom and livelihoods on the line, Jay and Cindy desperately need to clear their names. There are plenty of other potential suspects, but they'll have to solve it soon before they're forced to trade in their vintage costume collection for two orange jumpsuits.

The Twittering Machine

A brilliant probe into the political and psychological effects of our changing relationship with social media Former social media executives tell us that the system is an addiction-machine. We are users, waiting for our next hit as we like, comment and share. We write to the machine as individuals, but it responds by aggregating our fantasies, desires and frailties into data, and returning them to us as a commodity experience. The Twittering Machine is an unflinching view into the calamities of digital life: the circus of online trolling, flourishing alt-right subcultures, pervasive corporate surveillance, and the virtual data mines of Facebook and Google where we spend considerable portions of our free time. In this polemical tour de force, Richard Seymour shows how the digital world is changing the ways we speak, write, and think. Through journalism, psychoanalytic reflection and insights from users, developers, security experts and others, Seymour probes the human side of the machine, asking what we're getting out of it, and what we're getting into. Social media held out the promise that we could make our own history—to what extent did we choose the nightmare that it has become?

Representing Autism

From concerns about an 'autism epidemic' to the MMR vaccine crisis, autism is a source of peculiar fascination in the contemporary media. Author Stuart Murray, himself the parent of an autistic child, contends that for all the coverage, autism rarely emerges from the various images we produce of it as a comprehensible way of being in the world—instead occupying a succession of narrative spaces as a source of fascination and wonder. A refreshing analysis and evaluation of autism within contemporary society and culture, Representing Autism establishes the autistic presence as a way by which we might more fully articulate our understanding of those with the condition, and what it means to be a human. "This is an outstanding volume of empathetic scholarship. . . . Representing Autism is a truly significant piece of cultural criticism about one of the defining conditions of our time."—Mark Osteen, Loyola College

Letting Go of Disappointments and Painful Losses

Professional counselor Pam Vredevelt constantly hears the question, "How do I let go of the pain I feel?" Whether it is a soured friendship or dissatisfying job, a wayward child, or unrealistic expectations, every person has to deal with lingering disappointment and its clouding effect on attitude and relationships. God does not intend that pain to cripple, distort, and consume his children. Getting "unstuck" is possible, Pam writes, through the use of a few simple and practical tools that lead to peace of mind and tranquility of heart. We've all heard the expression, "Let go and let God." With compassion and warmth, Pam Vredevelt shows how.

Captivate

Do you feel awkward at networking events? Do you wonder what your date really thinks of you? Do you wish you could decode people? You need to learn the science of people. As a human behavior hacker, Vanessa Van Edwards created a research lab to study the hidden forces that drive us. And she's cracked the code. In Captivate, she shares shortcuts, systems, and secrets for taking charge of your interactions at work, at home, and in any social situation. These aren't the people skills you learned in school. This is the first comprehensive, science backed, real life manual on how to captivate anyone—and a completely new approach to building connections. Just like knowing the formulas to use in a chemistry lab, or the right programming language to build an app, Captivate provides simple ways to solve people problems. You'll learn, for example... · How to work a room: Every party, networking event, and social situation has a predictable map. Discover the sweet spot for making the most connections. · How to read faces: It's easier than you think to speed-read facial expressions and use them to predict people's emotions. · How to talk to anyone: Every conversation can be memorable—once you learn how certain words generate the pleasure hormone dopamine in listeners. When you understand the laws of human behavior, your influence, impact, and income will increase significantly. What's more, you will improve your interpersonal intelligence, make a killer first impression, and build rapport quickly and authentically in any situation—negotiations, interviews, parties, and pitches. You'll never interact the same way again.

The Great Equal Society

Confucianism is the guiding creed for a quarter of mankind, yet hardly anyone has explained it in plain terms OCo until now. Written in a style both intelligible and enjoyable for the global audience, The Great Equal Society distils the core ideas of the major Confucian classics and shows how their timeless wisdom can be applied to the modern world. It also introduces pragmatic suggestions emanating from Confucius and his followers for ensuring good governance, building a humane economy and educating moral leaders. The book's core message of inner morality, first expounded by Confucius millennia ago, will resonate on both sides of the Pacific, and its sweeping survey of the hot topics today OCo dysfunctional government, crony capitalism, and the erosion of ethics in both Wall Street and Main Street, among others OCo will breathe new life to Confucian teachings while providing much-needed answers to our urgent social problems. The Great Equal Society is written by Young-oak Kim, a Korean thinker whom Wikipedia describes as the nation's leading philosopher dealing with public issues and explaining Oriental philosophy to the public, and Jung-kyu Kim, a talented trilingual writer who has published works in English, Japanese and Korean.

Explores what is at stake in the work of assessment in the literature classroom, what we stand to gain, what we fear to lose, and whether current assessment methods can capture the outcomes we care about most: the complex, subtle, seemingly ineffable heart of learning. The essays in this volume are divided into four sections that focus on: outcomes assessment in the context of current national discussions of higher education and the work being done by various professional organizations; approaches to assessing "sublime learning" (that is, learning that can seem unassessable) and creativity; the question of what outcomes assessment can measure in the literature classroom, as well as the theoretical and political implications of doing so; case studies and templates for the assessment of literature programs, with related discussions of the assessment of writing and foreign language acquisition.--From publisher's description.

In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations.

Move over Boomers, Xers, and Millennials; there's a new generation--making up more than 25 percent of the US population--that represents a seismic cultural shift. Born approximately between 1993 and 2012, Generation Z is the first truly post-Christian generation, and they are poised to challenge every church to rethink its role in light of a rapidly changing culture. From the award-winning author of *The Rise of the Nones* comes this enlightening introduction to the youngest generation. James Emery White explains who this generation is, how it came to be, and the impact it is likely to have on the nation and the faith. Then he reintroduces us to the ancient countercultural model of the early church, arguing that this is the model Christian leaders must adopt and adapt if we are to reach members of Generation Z with the gospel. He helps readers rethink evangelistic and apologetic methods, cultivate a culture of invitation, and communicate with this connected generation where they are. Pastors, ministry leaders, youth workers, and parents will find this an essential and hopeful resource.

"Timely and important . . . It should be our North Star for the recovery and beyond." —Hillary Clinton "Sperling makes a forceful case that only by speaking to matters of the spirit can liberals root their belief in economic justice in people's deepest aspirations—in their

sense of purpose and self-worth.” —The New York Times When Gene Sperling was in charge of coordinating economic policy in the Obama White House, he found himself surprised when serious people in Washington told him that the Obama focus on health care was a distraction because it was “not focused on the economy.” How, he asked, was the fear felt by millions of Americans of being one serious illness away from financial ruin not considered an economic issue? Too often, Sperling found that we measured economic success by metrics like GDP instead of whether the economy was succeeding in lifting up the sense of meaning, purpose, fulfillment, and security of people. In *Economic Dignity*, Sperling frames the way forward in a time of wrenching change and offers a vision of an economy whose guiding light is the promotion of dignity for all Americans.

10 Things Employers Want You to Learn in College, Revised

From the bestselling author of *Tides of Honour* and *Promises to Keep* comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about "wolf packs" of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone's throw from Grace's window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. *Come from Away* is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

Come from Away

Butchery was nearly a dead art, until a recent renaissance turned progressive meat cutters into culinary cult idols. Inspired by a locally driven, nose-to-tail approach to butchery, this new wave of meat mavens is redefining the way we buy and cook our beef, pork, fowl, and game. The momentum of this revived butcher-love has created a carnivorous frenzy, pulling a new generation of home cooks straight into the kitchen—Primal Cuts: Cooking with America's Best Butchers is their modern meat bible. Marissa Guggiana, food activist, writer, and fourth generation meat purveyor, traveled the country to discover 50 of our most gifted butchers and share their favorite dishes, personal stories, and cooking techniques. From the Michelin star chef to the small farmer who raises free-range animals—butchers are the guide for this unique visual cookbook, packed with tons of their most prized recipes and good old-fashioned know-how. Readers will learn how to cook conventional and unconventional meat cuts, how to talk to their local butcher, and even how to source and buy their own whole animals for their home freezer. Much more than just a cookbook, Primal Cuts is a revealing look into the lives, philosophy, and work of true food artisans, all bound by a common respect for the food they produce and an absolute love for what they do. • 50 Profiles and Portraits of America's Best Butchers • 100 Meat Recipes for the Home Cook • Practical Advice on Techniques and Tools • Hundreds of Diagrams, Illustrations, and Photos • Home Butchering How-To • Tons of Trade Secrets

Financial Peace Revisited

We all, as children, saw imaginary friends and heard monsters in the closet. But for Suzan Saxman, those friends and monsters didn't go away—and they weren't imaginary. They were the dead who came to her from the time she was a little girl with urgent messages for the living. Raised in a house filled with secrets, she saw and spoke the truth as soon as she could talk, alarming the nuns in her convent school with her revelations and terrifying her own mother with her strange visions. Each night she woke to see a man with no eyes watching her, and each day she kept watch by the window while her father was at work and Steve, her real father, a swarthy drifter, rendezvoused with her mother. It was the 1960s in suburban Staten Island and she tried to hide it all, and be a daughter her mother could love. Always skeptical of her tremendous gift, she struggled to come to terms with her calling even as she revealed the destinies of everyone, from housewives to hit men, stockbrokers to rock-and-rollers. She could witness everyone's future—everyone's but her own. Why was she visited by angels and demons? Could she ever escape this strange fate? Where was her own soul mate? Now Suzan tells the story of her journey and tries to make sense of her family's buried secrets. Through powerful readings of others' destinies interwoven with compelling narrative, a reluctant psychic emerges from the shadows.

Primal Cuts

For the first time anywhere, the first-person account of the planning and execution of the Bin Laden raid from a Navy Seal who confronted the terrorist mastermind and witnessed his final moments. From the streets of Iraq to the rescue of Captain Richard Phillips in the Indian Ocean, and from the mountaintops of Afghanistan to the third floor of Osama Bin Laden's compound, operator Mark Owen of the U.S. Naval Special Warfare Development Group--commonly known as SEAL Team Six-- has been a part of some of the most memorable special operations in history, as well as countless missions that never made headlines. No Easy Day puts readers alongside Owen and the other handpicked members of the twenty-four-man team as they train for the biggest mission of their lives. The blow-by-blow narrative of the assault, beginning with the helicopter crash that could have ended Owen's life straight through to the radio call confirming Bin Laden's death, is an essential piece of modern history. In No Easy Day, Owen also takes readers onto the field of battle in America's ongoing War on Terror and details the selection and training process for one of the most elite units in the military. Owen's story draws on his youth in Alaska and describes the SEALs' quest to challenge themselves at the highest levels of physical and mental endurance. With boots-on-the-ground detail, Owen describes numerous previously unreported missions that illustrate the life and work of a SEAL and the evolution of the team after the events of September 11. In telling the true story of the SEALs whose talents, skills, experiences, and exceptional sacrifices led to one of the greatest victories in the War on Terror, Mark Owen honors the men who risk everything for our country, and he leaves readers with a deep understanding of the warriors who keep America safe.
