A bachelor's degree (from Medieval Latin baccalaureus) or baccalaureate (from Modern Latin baccalaureatus) is an undergraduate degree awarded by colleges and universities upon completion of a course of study lasting three to six years (depending on the institution and academic discipline). The two most common bachelor's degrees are the Bachelor of Arts (BA) and the Bachelor of Science (BS or BSc). In some institutions and educational systems, certain bachelor's degrees can only be taken as graduate or postgraduate educations after a first degree has been completed, although more commonly the successful completion of a bachelor's degree is a prerequisite for

further courses such as a master's or a doctorate.

In countries with qualifications frameworks, bachelor's degrees are normally one of...

Ernest Rutherford, Baron Rutherford of Nelson (30 August 1871 – 19 October 1937) was a New Zealand physicist and chemist who was a pioneering researcher in both atomic and nuclear physics. He has been described as "the father of nuclear physics", and "the greatest experimentalist since Michael Faraday". In 1908, he was awarded the Nobel Prize in Chemistry "for his investigations into the disintegration of the elements, and the chemistry of radioactive substances." He was the first Oceanian Nobel laureate, and the first to perform Nobel-awarded work in Canada.

Rutherford's discoveries include the concept of radioactive half-life, the radioactive element radon, and the differentiation and naming of alpha and beta radiation. Together with Thomas Royds, Rutherford is credited with proving that...

Women have been admitted since 1974, when the college was one of the first five men's colleges to become co-educational. Old members of Jesus College are sometimes known as "Jesubites".

Mathematicians who have studied at Jesus College include Nigel Hitchin (Savilian Professor of Geometry at Oxford 1997–2016), Jonathan Borwein (a former Rhodes Scholar who has held professorial appointments...

The Bologna Process is a series of ministerial meetings and agreements between European countries to ensure comparability in the standards and quality of higher-education qualifications. The process has created the European Higher Education Area under the Lisbon Recognition Convention. It is named after the University of Bologna, where the Bologna declaration was signed by education ministers from 29 European countries in 1999. The

process was opened to other countries in the European Cultural Convention of the Council of Europe, and government meetings have been held in Prague (2001), Berlin (2003), Bergen (2005), London (2007), Leuven (2009), Budapest-Vienna (2010), Bucharest (2012), Yerevan (2015), Paris (2018), and Rome (2020).

Before the signing of the Bologna declaration, the Magna Charta...

M.B.B.S. (Bachelor of Medicine and Bachelor of Surgery) a credential earned upon completion of a five-and-a-half-year undergraduate program. The curriculum is divided into one year of preclinical studies in general science subjects and three and a half years of paraclinical and clinical studies, followed by a one-year clinical internship. Before beginning the internship, students are required to pass several examinations, the final one of which is conducted in two parts. Postgraduate education in medical specialties typically takes 3 additional...
