

Comparative Constitutionalism Cases And Materials American Casebook Series

Comparative Constitutionalism

This comparative constitutional law casebook offers a comprehensive and paradigmatic approach to the subject: it examines how the vast increase in international movements of people, capital, goods, ideas, and information affect politics in and beyond nation-states and how this influx affects the rule of law, separation of powers, and fundamental rights. Indeed, this casebook stands apart as it represents an international collaboration of legal scholars and allows for diversity of perspectives. Utilizing case excerpts from at least 40 countries across every continent, students will examine the assumptions, choices and trade-offs, strategies, and effects from decisions by constitutional courts and human rights tribunals throughout various legal systems and political contexts. Moreover, this book examines the different theories of constitutionalism and analyzes how constitutional democracies address similar issues in different institutional settings. This third edition includes new material that speaks to current issues of pressing importance: citizenship, transnational constitutionalism, authoritarian and illiberal constitutions, collective rights and minorities, Internet censorship, religion in the public space, mass surveillance, and targeted killings. Both teachers and students will appreciate the complete coverage of complex topics within a manageable size and format. A comprehensive teacher's manual accompanies the casebook. --

Comparative Constitutionalism

This law school casebook examines how the vast increase in international movements of people,

capital, goods, ideas and information affect politics in and beyond nation-states, the rule of law and separation of powers, and fundamental rights. It contains case excerpts from at least 40 countries in all continents, examining the assumptions, choices and trade-offs, strategies and effects of decisions from constitutional courts and human rights tribunals in different legal systems and political contexts. It discusses different theories of constitutionalism and how constitutional democracies address similar issues, in different institutional settings. The second edition newly covers the controversy concerning citations to foreign authorities in U.S. Supreme Court decisions, as well as cases arising out of the "war on terrorism," including torture. In particular, there is new material on dignity, gay marriage, data protection, pornography, religious diversity, and developments in social welfare.

Dorsen, Rosenfeld and Sajo's Comparative Constitutionalism

Hardbound - New, hardbound print book.

The U.S. Constitution and Comparative Constitutional Law

This supplement brings the principal text current with recent developments in the law.

Cases and Materials on Constitutional Law

This second edition of The Fourteenth Amendment was revised with the expertise of co-editors Christopher Green and Scott Gaylord. Like other volumes in the Modular Casebook Series, The Fourteenth Amendment provides extensive historical background for the cases and materials, focuses students on the key arguments employed by the Supreme Court, and follows each case with detailed suggested questions that engage students in the reading and prompt robust classroom discussion. Faculty members have successfully utilized The Fourteenth Amendment as part of a standard constitutional law course and as the primary textbook for a 2-to-3 credit course focused on the

Fourteenth Amendment.

Federal Constitutional Law

This supplement brings the principal text current with recent developments in the law.

Cases and Materials on Constitutional Law

Harvard Law Professor Cass Sunstein has said that South Africa has "the most admirable constitution in the history of the world." This comparative constitutional law casebook is unique because it allows students and experts in U.S. constitutional law (or other nations) to compare their approach with modern South African constitutionalism. The transformative and progressive South African Constitution adopts the most successful parts of existing parliamentary constitutions, while honoring the nation's African heritage. Further, it incorporates numerous international human rights such as socio-economic and environmental rights. The book's South African focus guarantees readers will grasp the contingency and social context of a foreign constitutional court's decisions, rather than primarily surveying cases from numerous other nations. Yet the introductory chapter also provides background on South Africa, and then exposes readers to key theoretical questions about comparativism. Moreover, that chapter briefly describes seven other constitutional democracies where the courts play important but different roles than in South Africa. These nations provide further context for the strong judicial review exercised by the South African Constitutional Court. Indeed, excerpts from that Court's decisions make up most of the core second chapter. The core chapter also contains questions about the reasoning of each South African case, as well as how that case compares to a single foreign case on the same topic. The book is suitable for law students, as well as other graduate and undergraduate students. In addition, the book is the first condensed version of South African constitutional case law published in the U.S. Thus, it functions as a research collection for experts, as well as a casebook.

Cases and Materials on Constitutional Law

Constitutional Law 2011

The purchase of this ebook edition does not entitle you to receive access to the Connected eBook with Study Center on CasebookConnect. You will need to purchase a new print book to get access to the full experience, including: lifetime access to the online ebook with highlight, annotation, and search capabilities; practice questions from your favorite study aids; an outline tool and other helpful resources. In *Processes of Constitutional Decisionmaking*, an extraordinary team of authors traces the historical, political, and social development of constitutional law. Students will consider constitutional questions in a broad historical context, with cutting-edge insights from contemporary scholars. This book has been updated to include all new developments in the field, and delivers strong chapters on the constitutional treatment of sex equality, race, civil rights, separation of powers, and federalism. Key Features: Coverage of recent cases and materials including: *Obergefell v. Hodges* - Same-Sex Marriage *Whole Woman's Health v. Hellerstedt* - Abortion Regulation *Zivotofsky v. Kerry* - Presidential Power *Fisher v. University of Texas* - Affirmative Action New Discussion of Cooperative Federalism

Sessions v. Morales-Santana – Sex Equality

Cases and Materials on Constitutional Law

This supplement brings the principal text current with recent developments in the law.

Constitutional Law

This book analyses one of the most pressing issues of modern international law: the relationship between the international legal order and the domestic legal orders of sovereign states. It contains different perspectives on the legal complexity that results from the interactions between the international and domestic spheres.

Leading Cases in Constitutional Law, a Compact Casebook for a Short Course 2021

This supplement brings the principal text current with recent developments in the law.

Constitutional Law

Originally published in 2012, Dignity Rights is the first book to explore the constitutional law of dignity around the world. In it, Erin Daly shows how dignity has come not only to define specific interests like the right to humane treatment or to earn a living wage, but also to protect the basic rights of a person to control his or her own life and to live in society with others. Daly argues that, through the right to dignity, courts are redefining what it means to be human in the modern world. As described by the courts, the scope of dignity rights marks the outer boundaries of state power,

limiting state authority to meet the demands of human dignity. As a result, these cases force us to reexamine the relationship between the individual and the state and, in turn, contribute to a new and richer understanding of the role of the citizen in modern democracies. This updated edition features a new preface by the author, in which she articulates how, over the past decade, dignity rights cases have evolved to incorporate the convergence of human rights and environmental rights that we have seen at the international level and in domestic constitutions.

The Gender of Constitutional Jurisprudence

Constitutional Law: Cases and Materials, Third Edition is structured for a three- to five-hour introductory course in Constitutional Law. Coverage includes a review of the power of the three coordinate branches of the federal government with particular emphasis on the Federal and Supreme Courts. Constitutional Law: Cases and Materials emphasizes Individual Rights and includes Application of the Bill of Rights and the fundamental rights to Due Process, both substantive and procedural, as well as Equal Protection. First Amendment issues are not included: this casebook is meant for use in programs that offer separate First Amendment course. Professors and students will benefit from: Strong emphasis on civil rights and the Fourteenth Amendment including more extensive coverage of slavery, segregation, and civil rights and a very “realist view” of the role the Supreme Court has played from slavery to present. Structuring of Article III jurisdictional requirements as they are affected by a given subject matter in relation to how the judicial power should be applied in a democratic society. Beginning with a “mini course” in Supreme Court decision making and using the controversy generated by the “privacy and abortion cases” to show how actual case law is affected by the “weak origins” of judicial review and the conflict in the need to limit governmental power (the Constitution as fundamental law) by a non-elected Court in a democratic society. Allowing students to understand how the substantive contemporary controversies in the subject matter affect how the Court applies the judicial power. ? Preparing the student to understand how the use of the case and controversy requirements in Article III are applied to restrain the judicial power and bow to the democratic process, as exemplified by the “historic” privacy cases. Providing the students exposure to some of the classic articles dealing with these issues in order to benefit their understanding of the subject matter. New to the Third Edition: The authors have updated material and included information

on new developments in: The Pre-emption Doctrine The Civil Rights Act of 1964 Federalism
Presidential Power (including the Unitary Executive Theory) Post Shelby v. Holder Voting Rights
Redistricting Second Amendment right to bear arms Abortion Rights

Cases and Materials on Constitutional Law Supplement

Traditional in organization & approach, this casebook nevertheless provides a practical focus to the study of constitutional law through inclusion of actual litigation documents from cases discussed.

AND MATERIALS ON CONSTITUTIONAL LAW

Throughout the book, there is extensive information about the law and practice of other mostly civil-law countries that provides an opportunity for instructive comparative discussion. One chapter is devoted to international conflict, and another chapter is focused on conflict in cyberspace.

Constitutional Law

This casebook focuses upon Supreme Court opinions and other primary documents, offering comprehensive coverage of almost all major areas of constitutional doctrine. For decades, the distinctive pedagogical essence of the book - its commitment to providing as much of the raw case, constitutional provision, statutory and historical note material as is practical - has allowed teachers the freedom to structure the course in their own ways, and has encouraged students to formulate their own generalizations directly from the materials. It covers all major topics, including the role of the federal judiciary, separation of powers, federalism, the noncriminal aspects of the Bill of Rights, and the Reconstruction Amendments.

Supplement to Cases and Materials on Constitutional Law

Cases & Materials on Constitutional & Administrative Law provides an essential collection of key primary and secondary materials with incisive commentary from the authors.

Processes of Constitutional Decisionmaking

This supplement brings the principal text current with recent developments in the law.
