A motorcycle engine is an engine that powers a motorcycle. Motorcycle engines are typically two-stroke or four-stroke internal combustion engines, but other engine types, such as Wankels and electric motors, have been used.

Although some mopeds, such as the VéloSoleX, had friction drive to the front tire, a motorcycle engine normally drives the rear wheel, power being sent to the driven wheel by belt, chain or shaft. Historically, some 2,000 units of the Megola were produced between 1921 and 1925 with front wheel drive, and the modern Rokon, an all terrain motorcycle with both wheels driven, has been produced since 1960.

Most engines have a gearbox with up to six or even 7 ratios. Reverse gear is occasionally found on heavy tourers, for example the Honda GL1600, and sidecar motorcycles, such...

Avro Vulcan

To supplement it until the Royal Navy took on the deterrent role with Polaris SLBM-equipped submarines, the Vulcan bombers adopted a new mission profile

The Avro Vulcan (later Hawker Siddeley Vulcan from July 1963) was a jet-powered, tailless, delta-wing, high-altitude strategic bomber, which was operated by the Royal Air Force (RAF) from 1956 until 1984. Aircraft manufacturer A.V. Roe and Company (Avro) designed the Vulcan in response to

Specification B.35/46. Of the three V bombers produced, the Vulcan was considered the most technically advanced, and therefore the riskiest option. Several reduced-scale aircraft, designated Avro 707s, were produced to test and refine the delta-wing design principles.

The Vulcan B.1 was first delivered to the RAF in 1956; deliveries of the improved Vulcan B.2 started in 1960. The B.2 featured more powerful engines, a larger wing, an improved electrical system, and electronic countermeasures, and many were...

The descriptions of the items listed in this article reflect those given by their sellers and staff in the episodes, prior to their appraisal by experts as to their authenticity, unless otherwise noted.

The result was Bizarre adventure. The AfD is being closed many years later, because it was never properly closed back then, because it was never visible, because it was never transcluded on any of the daily logpages. Technically, it has still been open this whole time.

Gang Stalking - Closer's choice? (Not really) We have very few opinions here, which doesn't make for a great DRV debate; but it still has to be closed somehow. Here's what I'm going to do- I'm going to redirect Gang stalking and Gang Stalking to Cause stalking and protect them. This is somewhat complicated by Cause stalking also being at AfD, so if that is deleted, these redirects will be as well, but that is borrowing trouble from tomorrow. Ongoing AfD's are fully outside DRV jurisdiction, so the AfD is largely ignored for the purposes of this close. For Gang Stalking itself, if content is wanted at this title in the future, please bring a userspace draft back to a new DRV for a new debate and a new ...
