The College Scholastic Ability Test or CSAT (Korean: **고사**; Hanja: **고사**), also abbreviated as Suneung (**수능**; **수능**), is a standardised test which is recognised by South Korean universities. The Korea Institute of Curriculum and Evaluation (KICE) administers the annual test on the third Thursday in November.

The CSAT was originally designed to assess the scholastic ability required for college. Because the CSAT is the primary factor considered during the Regular Admission round, it plays an important role in South Korean education. Of the students taking the test, as of 2023, 65 percent are currently in high school and 31 percent are high-school graduates who did not achieve their desired score the previous year. The share of graduates taking the test has been steadily rising from 20 percent...

Diagnostic and Statistical Manual of Mental Disorders

American Experience and redefines wellness in terms of care instead of focusing on diagnosis, unlike the original DSM V. This included mock versions of DSM

The Diagnostic and Statistical Manual of Mental Disorders (DSM; latest edition: DSM-5-TR, published in March 2022) is a publication by the American Psychiatric Association (APA) for the classification of mental disorders using a common language and standard

criteria. It is an internationally accepted manual on the diagnosis and treatment of mental disorders, though it may be used in conjunction with other documents. Other commonly used principal guides of psychiatry include the International Classification of Diseases (ICD), Chinese Classification of Mental Disorders (CCMD), and the Psychodynamic Diagnostic Manual. However, not all providers rely on the DSM-5 as a guide, since the ICD's mental disorder diagnoses are used around the world, and scientific studies often measure changes in symptom...

Kenneth Robert Livingstone (born 17 June 1945) is an English former politician who served as the Leader of the Greater London Council (GLC) from 1981 until the council was abolished in 1986, and as Mayor of London from the creation of the office in 2000 until 2008. He also served as the Member of Parliament (MP) for Brent East from 1987 to 2001. He is a former member of the Labour Party, ideologically identifying as a socialist.

Born in Lambeth, South London, to a working-class family, Livingstone joined Labour in 1968 and was elected to represent Norwood at the GLC in 1973, Hackney North and Stoke Newington in 1977, and Paddington in 1981. That year, Labour representatives on the GLC elected him as the council's leader. Attempting to reduce London Underground fares, his plans were challenged...

List of Nova episodes

(London), "The day the Dam Busters returned... in Canada" Archived December 3, 2017, at the Wayback Machine, Tom Chivers, 2 May 2011 (accessed 2011 August)

Nova is an American science documentary television series produced by WGBH Boston for PBS. Many of the programs in this list were not originally produced for PBS, but were acquired from other sources such as the BBC. All acquired programs are edited for Nova, if only to provide American English narration and additional voice of interpreters (translating from another language).

Most of the episodes aired in a 60-minute time slot.

In 2005, Nova began airing some episodes titled NOVA scienceNOW, which followed a newsmagazine style format. For two seasons, NOVA scienceNOW episodes aired in the same time slot as Nova. In 2008, NOVA scienceNOW was officially declared its own series and given its own time slot. Therefore, NOVA scienceNOW episodes are not included in this list.
