Frequently Asked Questions (FAQ)

Q1: What is the difference between a republic and a democracy?

A1: While both involve citizen participation in government, a

American Republic Section Quiz Answers

republic is a representative democracy. In a pure democracy, citizens directly participate in decision-making. In a republic, citizens elect representatives to make decisions on their behalf. The US is a republic, not a pure democracy.

Q2: What is the significance of the principle of checks and balances?

A2: Checks and balances prevent any one branch of government from becoming too powerful. Each branch has the power to limit the actions of the other two. For example, Congress can impeach the President, the President can veto legislation passed by Congress, and the Supreme Court can declare laws unconstitutional.

Q3: How does the amendment process work?

A3: The Constitution can be amended through a two-step process. An amendment can be

proposed either by a two-thirds vote of both houses of Congress or by a constitutional convention called for by two-thirds of the state legislatures. Ratification requires approval by three-fourths of the states (either through their legislatures or through state ratifying conventions).

Q4: What is judicial review?

A4: Judicial review is the power of the Supreme Court to declare laws and executive actions unconstitutional. This power wasn't explicitly mentioned in the original Constitution but was established through the landmark case *Marbury v. Madison* (1803).

Q5: How does federalism impact the American political system?

A5: Federalism divides power between the national government and state governments. This creates a balance of power,

Q7: Why is understanding the historical context of the Constitution important?

the Founding Fathers and the challenges they faced in creating a new nation.

Q8: Where can I find reliable information to study the American Republic?
