The woolly mammoth (*Mammuthus primigenius*) is an extinct species of mammoth that lived from the Middle Pleistocene until its extinction in the Holocene epoch. It was one of the last in a line of mammoth species, beginning with the African *Mammuthus subplanifrons* in the early Pliocene. The woolly mammoth began to diverge from the steppe mammoth about 800,000 years ago in Siberia. Its closest extant relative is the Asian elephant. The Columbian mammoth (*Mammuthus columbi*) lived alongside the woolly mammoth in North America, and DNA studies show that the two hybridised with each other. Mammoth remains were long known in Asia before they became known to Europeans. The origin of these remains was long debated and often explained as the remains of legendary creatures. The mammoth was identified...

In the cultures of the Horn of Africa and adjacent regions of the Middle East, Zār (Arabic: زار, Ge'ez: ጋራ) is the term for a demon or spirit assumed to possess individuals, mostly women, and to cause discomfort or illness.

The so-called zār ritual or zār cult is the practice of reconciling the possessing spirit and the possessed individual. Zār possession is often considered lifelong and the rituals associated with it are a form of adorcism, though some have falsely attributed it as an exorcism rite because it involves possession. It is similar to the Maghreb's Hamadsha, Hausa Animism, and various African Traditional religions, such as Voodoo.

Zār is also a form of predominantly (not solely) women's entertainment that has become popular in the contemporary urban culture of Cairo and other...

After a 20-month break from the Punic Wars I am returning, with elephants, Hannibal, Cannae, crossing the Alps, elephants, 17 years of slaughter, Scipio Africanus, Zama, and yet more elephants. All in fewer than 6,000 words. I took this to GA in 2020 and put it on the backburner while I concentrated on other matters. After a recent overhaul, especially of the sourcing - thank...

Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will show the equivalent words you need to learn in the other language to achieve fluency. A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. You can use the list to generate your own lists in whatever language you're learning and to test yourself.
