SEAT Ibiza

were sold as the SEAT Córdoba. In 2010, an estate version, called Ibiza ST, was launched. Introduced at the 1984 Paris Motor Show, the SEAT Ibiza Mk1 (codenamed

The SEAT Ibiza is a supermini car that has been manufactured by Spanish car manufacturer SEAT since 1984. It is SEAT's best-selling car. The Ibiza is named after the Spanish island of Ibiza and was the second SEAT model to be named after a Spanish location, after the SEAT Málaga. It was introduced at the 1984 Paris Motor Show as the first car developed by SEAT as an independent company, although it was designed by SEAT in collaboration with well-known firms including Italdesign, Karmann, and Porsche.

From the second-generation version onwards, SEAT formed part of the German automotive industry concern Volkswagen Group. All subsequent Ibiza generations, and the rest of the SEAT model range, incorporated Volkswagen Group platforms, parts, and technologies.

The Ibiza spans five generations, among...

SEAT León

the car's infotainment system and gives the user access to all the features of the SEAT ConnectApp. The SEAT León CONNECT has a range of exterior body colours

The SEAT León (Spanish pronunciation: ['se.at le'on]), also spelled Leon in some other languages (named after the city of León, which also means "Lion" in Spanish), is a small family car built by the Spanish car manufacturer SEAT since October 1999.

The first two León generations used two differing variants of the Volkswagen Group A platform, and shared many components with other Volkswagen Group cars. The third and fourth generation use the Volkswagen Group MQB platform, also used by the Audi A3 Mk3 and Mk4, Volkswagen Golf Mk7 and Mk8 and Škoda Octavia Mk3 and Mk4.

Direct-shift gearbox

fitted with a manual transmission. This could increase the likelihood of an accident affecting the occupants of the vehicle and other road users. List of ZF

A direct-shift gearbox (DSG, German: Direktschaltgetriebe) is an electronically controlled, dual-clutch, multiple-shaft, automatic gearbox, in either a transaxle or traditional transmission layout (depending on engine/drive configuration), with automated clutch operation, and with fully-automatic or semi-manual gear selection. The first dual-clutch transmissions were derived from Porsche in-house development for the Porsche 962 in the 1980s.

In simple terms, a DSG automates two separate "manual" gearboxes (and clutches) contained within one housing and working as one unit. It was designed by BorgWarner and is licensed to the Volkswagen Group, with support by IAV GmbH. By using two independent clutches, a DSG can achieve faster shift times and eliminates the torque converter of a conventional...

English Electric Canberra

province of Córdoba. B Mk.62 B-102 (ex-RAF WJ713). Retired in 1998, and assigned to "Museo Nacional de Malvinas"; Oliva, province of Córdoba. B Mk.62 B-105

The English Electric Canberra is a British first-generation, jet-powered medium bomber. It was developed by English Electric during the mid- to late 1940s in response to a 1944 Air Ministry requirement for a successor to the wartime de Havilland Mosquito fast bomber. Among the performance requirements for the type was an outstanding high-altitude bombing capability and high speed. These were partly accomplished by making use of newly developed jet-propulsion technology. When the Canberra was introduced to service with the Royal Air Force (RAF), the type's first operator, in May 1951, it became the service's first jet-powered bomber.

In February 1951, a Canberra set another world record when it became the first jet aircraft to make a nonstop transatlantic flight. Throughout most of the 1950s...

Renault Kangoo

stop the wheelchair from moving forward. A normal, long seat

Seat Cordoba English User Manual

belt is worn by the wheelchair user. Both the Kangoo and Kangoo Express were available in four-wheel

The Renault Kangoo is a family of vans built by Renault since 1997 across three generations. It is sold as a passenger multi-purpose vehicle or as a light commercial vehicle. For the European market, the Kangoo is manufactured at the MCA plant in Maubeuge, France.

The Kangoo was also marketed as a rebadged variant by Nissan in Europe as the Nissan Kubistar (first generation), Nissan NV250 (second generation) and Nissan Townstar (third generation). In September 2012, Mercedes-Benz began marketing a rebadged variant of the second generation Kangoo as the Mercedes-Benz Citan, which is also marketed as Mercedes EQT and Mercedes T-Class for the current generation.

As of December 2019, the electric variant, the Renault Kangoo Z.E., is Europe's top selling all-electric light commercial vehicle, with...

Embraer EMB 312 Tucano

The Embraer EMB 312 Tucano (English: Toucan) is a low-wing, tandem-seat, single-turboprop, basic trainer and light attack aircraft developed and produced

The Embraer EMB 312 Tucano (English: Toucan) is a low-wing, tandem-seat, single-turboprop, basic trainer and light attack aircraft developed and produced by Embraer in Brazil. The Brazilian Air Force sponsored the EMB-312 project at the end of 1978. Design and development work began in 1979 on a low-cost, relatively simple, new basic trainer with innovative features which eventually became the international standard for basic training aircraft. The prototype first flew in 1980, and initial production units were delivered in 1983.

Production was initially supported by a local order for 118 aircraft, with options for an additional 50 units in October 1980. It was later matched by an Egyptian licence-produced purchase in 1993 and subsequently by a variant known as the Short Tucano, which was licence...

Parachute

dates back to ancient attempts at flight. In AD 852, Armen Firman, in Córdoba, Spain, made the first recorded jump with a large cloak to slow his fall

Seat Cordoba English User Manual

A parachute is a device designed to slow an object's descent through an atmosphere by creating drag or aerodynamic lift. It is primarily used to safely support people exiting aircraft at height, but also serves various purposes like slowing cargo, aiding in space capsule recovery on Earth, landing spacecraft on other planets, and stabilizing vehicles or objects. Modern parachutes are typically made from durable fabrics like nylon and come in various shapes, such as dome-shaped, rectangular, and inverted domes, depending on their specific function.

The concept of the parachute dates back to ancient attempts at flight. In AD 852, Armen Firman, in Córdoba, Spain, made the first recorded jump with a large cloak to slow his fall. Renaissance figures like Francesco di Giorgio Martini and Leonardo...

Comparison of Portuguese and Spanish

Benasar, Bennásar, Benavides, Bendala, Bujalance, Calatayud, Ceuta, Cid, Córdoba, Dris, Faulí, Gálvez, Godesteiz, Granada, Guadalupe, Gudiel, Hispán, Yllán

Portuguese and Spanish, although closely related Romance languages, differ in many aspects of their phonology, grammar, and lexicon. Both belong to a subset of the Romance languages known as West Iberian Romance, which also includes several other languages or dialects with fewer speakers, all of which are mutually intelligible to some degree.

The most obvious differences between Spanish and Portuguese are in pronunciation. Mutual intelligibility is greater between the written languages than between the spoken forms. Compare, for example, the following sentences—roughly equivalent to the English proverb "A word to the wise is sufficient," or, a more literal translation, "To a good listener, a few words are enough.":

Al buen entendedor pocas palabras bastan (Spanish pronunciation: [al 'βwen...

Buenos Aires

period of British rule, the viceroy Rafael Sobremonte managed to escape to Córdoba and designated this city as capital. Buenos Aires became the capital again

Buenos Aires, controlled by the government of the Autonomous

Seat Cordoba English User Manual

City of Buenos Aires, is the capital and largest city of Argentina. It is located on the southwest of the Río de la Plata. Buenos Aires is classified as an Alpha– global city, according to the GaWC 2024 ranking. The city proper has a population of 3.1 million and its urban area 16.7 million, making it the twentieth largest metropolitan area in the world.

It is known for its preserved eclectic European architecture and rich cultural life. It is a multicultural city that is home to multiple ethnic and religious groups, contributing to its culture as well as to the dialect spoken in the city and in some other parts of the country. Since the 19th century, the city, and the country in general, has been a major recipient of millions of...

Gloster Meteor

the city of Córdoba, damaging several Avro Lincoln bombers. The rebel-flown Meteors were used to attack loyalist forces attacking Córdoba, losing one

The Gloster Meteor was the first British jet fighter and the Allies' only jet aircraft to engage in combat operations during the Second World War. The Meteor's development was heavily reliant on its ground-breaking turbojet engines, pioneered by Frank Whittle and his company, Power Jets Ltd. Development of the aircraft began in 1940, although work on the engines had been under way since 1936.

The Meteor first flew in 1943 and commenced operations on 27 July 1944 with No. 616 Squadron RAF. The Meteor was not a sophisticated aircraft in its aerodynamics, but proved to be a successful combat fighter. Gloster's 1946 civil Meteor F.4 demonstrator G-AIDC was the first civilian-registered jet aircraft in the world. Several major variants of the Meteor incorporated technological advances during the...
