The Toyota HiAce (Japanese: トヨタハイエース, Hepburn: Toyota Haiēsu) (pronounced "High Ace") is a light commercial vehicle produced by the Japanese automobile manufacturer Toyota. First launched in October 1967, the HiAce has since been available in a wide range of body configurations, including a minivan/MPV, minibus, panel van, crew van, pickup truck, taxi and an ambulance.

The Toyota Fortuner, also known as the Toyota SW4, is a mid-size SUV manufactured by the Japanese automaker Toyota since 2004.

Built on the Hilux pickup truck platform, it features two/three rows of seats and is available in either rear-wheel drive or four-wheel drive configuration. It is a part of Toyota's IMV project for emerging markets, which also includes the Hilux and the Innova.

The name Fortuner is derived from the English word fortune.

The Toyota Innova is a series of multi-purpose vehicles (MPV) manufactured by the Japanese carmaker Toyota since 2004, mainly sold with three-row seating.

The Innova is the replacement for wagon versions of Kijang (internally known as the Toyota Utility Vehicle), which was also marketed under different names such as Tamaraw FX/Revo, Unser, Zace and Condor. Like the outgoing Kijang, the first two generations (2004–2022) of the Innova are rear-wheel-drive vehicles built on the body-on-frame chassis shared with the Hilux pickup truck and the Fortuner SUV under the IMV project, instead of the unibody construction commonly used by MPVs of its era. The chassis was adopted due to the perceived strength and durability which are preferred by customers mainly in Indonesia. The third-generation model...

The Toyota Hilux (Japanese: トヨタハイラックス, Hepburn: Toyota Hairakkusu), stylised as HiLux and historically as Hi-Lux, is a series of pickup trucks produced and marketed by the Japanese automobile manufacturer Toyota. The majority of these vehicles are sold as a pickup truck or cab chassis, although they could be configured in a variety of body styles.

The pickup truck was sold with the Hilux name in most markets, but in North America, the Hilux name was retired in 1976 in favor of Truck, Pickup Truck, or Compact Truck. In North America, the popular option package, the SR5 (Sport Runabout 5-Speed), was colloquially used as a model name for the truck, even though the option package was also used on other Toyota models, like the 1972 to 1979 Corolla. In 1984, the Trekker, the wagon version of the...

Toyota Motor Corporation's A family is a family of automatic FWD/RWD/4WD/AWD transmissions built by Aisin-Warner. They share much in common with Volvo's AW7* and Aisin-Warner's 03-71* transmissions, which are found in Suzukis, Mitsubishis, and other Asian vehicles.
