Honda CR-X

*Mileage of 1987 Honda Civic CRX HF, fueleconomy.gov website Helm Inc., Honda Civic CRX Service Manual 1986, p. 3-9
"Honda Electronic parts catalogue D14*

The Honda CR-X (styled in some markets as Honda CRX), originally launched as the Honda Ballade Sports CR-X in Japan, is a front-wheel-drive sport compact car manufactured by Honda from 1983 until 1991 with nearly 400,000 produced during this period. The first-generation CRX was marketed in some regions outside Japan as the Honda Civic CRX. Although there are many supposed definitions for the initialism CR-X, the most widely accepted is "Civic Renaissance Experimental".

In the U.S., the CRX was marketed as an economy sport Kammback with room for two passengers while Japanese and European market cars came with a 2+2 seating arrangement. Redesigned for the 1988 model year and produced until 1991, the CRX was popular for its performance, nimble handling, and good fuel economy. The CR-X was replaced...

Honda CT series

The Honda CT series was a group of Honda trail bike motorcycles made since 1964. The CT designation is a slight exception in Honda nomenclature in that

The Honda CT series was a group of Honda trail bike motorcycles made since 1964. The CT designation is a slight exception in Honda nomenclature in that "CT" does not indicate a series of mechanically related bikes, but rather a group of different bikes that are all for casual off-road use.

The Honda XL125V Varadero is a dual-sport motorcycle with a 125 cc four stroke V-twin engine, produced by Honda from 2001 to 2015.

Honda C engine

(catalyst) C27A1

1988–1991 Sterling 827, 168 bhp (125 kW; 170 PS) (catalyst) C27A4 - 1995–1997 Honda Accord, 170 bhp (127 kW; 172 PS) (catalyst) For this - Honda's first production V6 was the C series; it was produced in displacements from 2.0 to 3.5 liters. The C engine was produced in various forms for over 20 years (1985–2005), having first been used in the KA series Legend model, and its British sister car the Rover 800-series (and Sterling).

All C engines share in common a 90-degree V-angle from bank to bank, common cylinder block bore centers, and four valves per cylinder. It is an all-aluminum design, and uses timing belt-driven single or dual overhead camshafts; the water pump is also driven by the timing belt.

All C engines use an interference design; if the timing belt fails, any open valves will clash into the pistons, and severe engine damage will occur.

The engine family can be broken down into three sub families:

C20A, C20AT, C25A...

Honda Super Cub

The Honda Super Cub (or Honda Cub) is a Honda underbone motorcycle with a four-stroke single-cylinder engine ranging in displacement from 49 to 124 cc

The Honda Super Cub (or Honda Cub) is a Honda underbone motorcycle with a four-stroke single-cylinder engine ranging in displacement from 49 to 124 cc (3.0 to 7.6 cu in).

In continuous manufacture since 1958 with production surpassing 60 million in 2008, 87 million in 2014, and 100 million in 2017, the Super Cub is the most produced motor vehicle* in history. Variants include the C50, C65, C70 (including the Passport), C90, C100 (including the EX) and it used essentially the same engine as the Sports Cub C110, C111, C114 and C115 and the Honda Trail series.

The Super Cub's US advertising campaign, You meet the nicest people on a Honda, had a lasting impact on Honda's image and on American attitudes to motorcycling, and is often used as a marketing case study.

Honda Accord

The Honda Accord (Japanese: アコード, Hepburn: Honda Akōdo; /ə'kɔːrd/), also known as the Honda Inspire (Japanese: インスパイア, Hepburn: Honda Insupaia)

The Honda Accord (Japanese: アコード, Hepburn: Honda Akōdo;), also known as the Honda Inspire (Japanese: インスパイア, Hepburn: Honda Insupaia) in Japan and China for certain generations, is a series of automobiles manufactured by Honda since 1976, best known for its four-door sedan variant, which has been one of the best-selling cars in the United States since 1989. The Accord nameplate has been applied to a variety of vehicles worldwide, including coupes, station wagons, hatchbacks and a Honda Crosstour crossover.

Honda Gold Wing

Retrieved 18 January 2014. "HONDA GL1100 '80- '82 GL1100I '80- '82 GL1100A '82 PARTS MANUAL" (PDF). Parts Manual. Honda. Archived from the original (PDF)

The Honda Gold Wing is a series of touring motorcycles manufactured by Honda. Gold Wings feature shaft drive and a flat engine. Characterized by press in September 1974 as "The world's biggest motor cycle manufacturer's first attack on the over-750cc capacity market...", it was introduced at the Cologne Motorcycle Show in October 1974.

Honda Motor Co., Ltd., commonly known as Honda, is a Japanese multinational conglomerate automotive manufacturer headquartered at the Toranomom Alcea Tower in Toranomom, Minato, Tokyo, Japan.

Founded in October 1946 by Soichiro Honda, Honda has been the world's largest motorcycle manufacturer since 1959, reaching a production of 500 million as of May 2025. It is also the world's largest manufacturer of internal combustion engines measured by number of units, producing more than 14 million internal combustion engines each year. Honda became the second-largest Japanese automobile manufacturer in 2001. In 2015, Honda was the eighth largest automobile manufacturer in the world. The company has also built and sold the most produced motor vehicle in history, the Honda Super Cub.

Honda was the first...

The Honda R engine is an inline-four engine launched in 2006 for the Honda Civic (non-Si). It is fuel injected, has an aluminum-alloy cylinder block and cylinder head, is a SOHC 16-valve design (four valves per cylinder) and utilizes Honda's i-VTEC system. The R series engine has a compression ratio of 10.5:1, features a "drive by wire" throttle system which is computer controlled to reduce pumping losses and create a smooth torque curve.

The engine uses many advanced technologies to improve fuel economy and reduce friction. Piston rings are given an ion plating and weight is reduced with plastic and aluminum parts and variable length intake manifolds that maintain ram air at a wide RPM range. The engine also features piston cooling jets, previously available only on high performance engines...

Honda CBR600F

The Honda CBR600F is a CBR series 600 cubic centimetres (36.6 cubic inches) inline four-cylinder sport bike motorcycle made by Honda Motorcycles. The first

The Honda CBR600F is a CBR series 600 cubic centimetres (36.6 cubic inches) inline four-cylinder sport bike motorcycle made by Honda Motorcycles. The first model of the CBR600F was sold from 1987 to 1990 and is known in the US as the Hurricane. In Austria and Mexico, a smaller version, called CBR500F, was offered. The subsequent models are designated as CBR600F2, F3, F4, and F4i respectively. In 2011, Honda released a more modern model with the same name.

The original CBR600F, along with the CBR750F and CBR1000F were Honda's first inline four-cylinder, fully-faired sport bikes. The style was said to be influenced by a brief European trend toward a smooth and completely enclosed fairing such as in the Ducati Paso.
