This book is essential reading for every MGB enthusiast. The mechanical aspects and the restoration of the vehicle have been written about in numerous publications but the so often maligned electrical systems has never before been comprehensively covered. For those new to vehicle electrical systems the book provides a simple primer using mechanical analogies. Each system in the car has its own chapter, with simple and uncluttered circuit diagrams in which each wire can be seen in its real colours. More than a how-to-do guide, the book also explains the “why” of each system and procedure, aiding diagnostics when things don’t go quite as they should. The many fault finding guides help pin those elusive problems down. For those wishing to improve the car for reliability and safety.

Allan Moffat is one of the legends of Australian motor sport. His extraordinary driving career, which lasted from the mid-1960s to the late 1980s, coincided with the heyday of touring car racing. His achievements included 32 Australian Touring Car wins, four of them at Bathurst, and four Championships. His Trans Am Mustang, surely the definitive racing touring car of all time, claimed more than 100 victories. But Moffat's impact went well beyond the winner's podium. He brought a new level of business professionalism to motor racing, pioneering the use of sponsorship in a way that would change the sport forever. Moffat, intense, reserved and driven, has been known as a man of few words. For years motor-sport fans have wanted to hear his story, and now Allan is telling it for the first time. His book is the compelling account of a young Canadian who moved to Australia with his family as a boy and became one of our greatest racing drivers. It's a tale of the epic rivalry with Peter Brock, which surprisingly culminated in a driving partnership and huge mutual respect, and it's about nostalgia for the glory days of motor sport in this country, when the concept of Holden versus Ford really did divide the nation, and when Mount Panorama was the true Mecca for hundreds of thousands, if not millions, of Australians. Filled with intense rivalries, huge egos, on-course stories and incidents, and all against the backdrop of our motor sport history over

more than forty years, this is THE book for all fans of Australian motor racing.
