Reading

systems (letter clues, meaning clues from context, and the syntactical structure of the sentence). It became the primary method of reading instruction in

Reading is the process of taking in the sense or meaning of symbols, often specifically those of a written language, by means of sight or touch.

For educators and researchers, reading is a multifaceted process involving such areas as word recognition, orthography (spelling), alphabetics, phonics, phonemic awareness, vocabulary, comprehension, fluency, and motivation.

Other types of reading and writing, such as pictograms (e.g., a hazard symbol and an emoji), are not based on speech-based writing systems. The common link is the interpretation of symbols to extract the meaning from the visual notations or tactile signals (as in the case of braille).

This is a page for working on Arbitration decisions. The Arbitrators, parties to the case, and other editors may draft proposals and post them to this page for review and comments. Proposals may include proposed general principles, findings of fact, remedies, and enforcement provisions—the same format as is used in Arbitration Committee decisions. The bottom of the page may be used for overall analysis of the /Evidence and for general discussion of the case.

Any user may edit this workshop page. Please sign all suggestions and comments. Arbitrators will place proposed items they believe should be part of the final decision on the /Proposed decision page, which only Arbitrators and clerks may edit, for voting, clarification as well as implementation purposes.
