450 models, gasoline and diesel engines. Chilton's Repair & Tune-Up Guide Series. Radnor, PA, USA: Chilton Book Co. ISBN 0-8019-5907-1. Freeman, Kerry

The Mercedes-Benz W 108 and W 109 are luxury cars produced by Mercedes-Benz from 1965 through to 1972 to succeed the W 111 and W 112 "fintail" (German: "Heckflosse") sedans. The cars were successful in West Germany and in export markets including North America and Southeast Asia. During the seven-year run, a total of 383,072 units were manufactured. Some publications mention 383,361 units.

As the W 108 and W 109 were only available as 4-door models, similarly squarish Bracq-designed 2-door W 111 and W 112 coupés and cabriolets filled those niches, and are often

mistaken for W 108/W 109 two-doors.

Mercedes-Benz W123

Mercedes: Coupes/Sedans/Wagons, 1974-84 Repair Manual. Chilton Total Car Care Series. Radnor, PA, USA: Chilton; Sparkford, UK: Haynes Publishing. ISBN 0-8019-9076-9

The Mercedes-Benz W123 is a range of executive cars produced by German manufacturer Mercedes-Benz from November 1975 to January 1986. The W123 models surpassed their predecessor, the Mercedes-Benz W114, as the most successful Mercedes-Benz, selling 2.7 million units before production ended in the autumn of 1985 for the saloon/sedan versions and January 1986 for coupés and estates/station wagons.

Following a slow production build-up during the first year, customers who placed their orders faced a lengthy waiting period of nine to twelve months. A black market emerged for the customers who were willing to pay more for immediate delivery. The slightly used W123 commanded about 5,000 Deutsche Mark premium over its original sale price.

Like its predecessors, the W123 gained the reputation of being...

Porsche 924

924 and 928: 1977-81, 924 · 924 Turbo · 928. Chilton's Repair & Tune-Up Guide Series. Radnor, PA, US: Chilton Book Co. ISBN 0801970482. Lipton, Charles;

The Porsche 924 is a sports car produced by Porsche in

Neckarsulm, Germany, from 1976 until 1988. A two-door, 2+2 coupé, the 924 replaced the 912E and 914 as the company's entry-level model.

Although the 928 was designed first, the 924 was the first production road-going Porsche to use water cooling and a front-engine, rear-wheel-drive layout. It was also the first Porsche to be offered with a conventional fully automatic transmission. Like the 914, the 924 began as a joint venture with Volkswagen (VW). Although VW canceled plans to sell a version under its own nameplate, opting to market the independently-developed Scirocco instead, the 924 was assembled in a VW-operated plant and initially used a VW engine.

The 924 made its public debut in November 1975 and a turbocharged version was introduced...
