The Tragedy of Hamlet, Prince of Denmark, often shortened to Hamlet (), is a tragedy written by William Shakespeare sometime between 1599 and 1601. It is Shakespeare's longest play. Set in Denmark, the play depicts Prince Hamlet and his attempts to exact revenge against his uncle, Claudius, who has murdered Hamlet's father in order to seize his throne and marry Hamlet's mother.

Hamlet is considered among the "most powerful and influential tragedies in the English language", with a story capable of "seemingly endless retelling and adaptation by others." It is widely considered one of the greatest plays of all time. Three different early versions of the play are extant: the First Quarto (Q1, 1603); the Second Quarto (Q2, 1604); and the First Folio (F1, 1623). Each version includes lines and...

From its premiere at the turn of the 17th century, Hamlet has remained Shakespeare's best-known, most imitated, and most analyzed play . The character of Hamlet played a critical role in Sigmund Freud's explanation of the Oedipus complex. Even within the narrower field of literature, the play's influence has been strong. As Foakes writes, "No other character's name in Shakespeare's plays, and few in literature, have come to embody an attitude to life ... and been converted into a noun in this way."

The Tower Division was a liberty in the ancient county of Middlesex, England. It was also known as the Tower Hamlets, and took its name from the military obligations owed to the Constable of the Tower of London. The term 'Hamlets' probably referred to territorial sub-divisions of the parish of Stepney - and its daughter parishes - rather than to the usual meaning of a small village.

In contemporary terms, the Liberty covered inner East London, the area now administered by the eponymous modern London Borough of Tower Hamlets together with most of the modern London Borough of Hackney (Shoreditch and Hackney proper). The Liberty was seen as synonymous with East London until East London extended further, east of the Lea and into Essex.

The Tower Division was formed sometime in the 17th century...

Analysis paralysis

decision-making with equal options. In Shakespeare's Hamlet, the main character, Prince Hamlet, is often said to have a mortal flaw of thinking too much

Analysis paralysis (or paralysis by analysis) describes an individual or group process where overanalyzing or overthinking a situation can cause forward motion or decision-making to become "paralyzed", meaning that no solution or course of action is decided upon within a natural time frame. A situation may be deemed too complicated and a decision is never made, or made much too late, due to anxiety that a potentially larger problem may arise. A person may desire a perfect solution, but may fear making a decision that could result in error, while on the way to a better solution. Equally, a person may hold that a superior solution is a short step away, and stall in its endless pursuit, with no concept of diminishing returns. On the opposite end of the time spectrum is the phrase extinct by instinct...

The Twenty Questions Murder Mystery, also known as *Murder on the Air*, is a 1950 British second feature comedy crime film directed by Paul L. Stein and starring Robert Beatty, Rona Anderson, and Clifford Evans. The screenplay was by Victor Katona and Patrick Kirwan. The film is a hybrid: the Twenty Questions sections take place in a studio recording of the BBC radio programme with the regular panellists and presenter. This is threaded into the plot as the clues trigger a series of murders, each linked to the clue.
