Peugeot 205

Legg, A. K.; Mead, John S. (1996), Peugeot 205: Service and Repair Manual, Sparkford, Nr Yeovil, Somerset, UK: Haynes Publishing, ISBN 1-85960-189-8 Wikimedia

The Peugeot 205 is a four-passenger, front-engine, supermini (B-segment) car manufactured and marketed by Peugeot over a sixteen-year production run from 1983 to 1999, over a single generation. Developed from Projet M24 and introduced on 25 February 1983, the 205 replaced the Peugeot 104 and the Talbot Samba, using major elements from their design. It won What Car?'s Car of the Year for 1984. It was also declared "car of the decade" by CAR Magazine in 1990. Peugeot stopped marketing the 205 in 1999 in favor of its new front-engined 206. The 106, which was introduced in 1991, effectively took over as Peugeot's smaller front-engined model in their lineup. The latter was developed as a close sibling of the Citroën AX, sharing many components and a platform that later evolved into the Citroën Saxo...

Mini Hatch

6-speed manual or automatic gearbox. The turbocharged engine is the same (although with some French engineering modifications) as the one in the Peugeot 207

The Mini (stylised as MINI) supermini range, marketed under various names such as Mini Cooper, Mini Hatch, Mini Hardtop, Mini One, and Mini John Cooper Works, are a family of retro-styled three-door hatchback, two-door convertible, and five-door hatchback (since 2014). The range was introduced in July 2001, following the acquisition of the Mini brand by German automaker BMW.

BMW first unveiled the Mini hatch concept car at the 1997 Frankfurt International Motor Show, when the Mini brand was still part of the BMW-owned Rover Group. Developed as a successor to the original Mini, the styling of the concept car was well received by the public and further developed. The new Mini range was launched by BMW in 2001, one year after their sale of the Rover Group in March 2000, and the classic Mini's...

List of badge-engineered vehicles

Camry/Vienta and Holden Apollo Automotive Repair Manual, Mike Forsythe, John Harold Haynes, Haynes Publishing Group, 1997 Guntara, Aswin (11 July 2017)

This is a list of vehicles that have been considered to be the result of badge engineering (rebadging), cloning, platform sharing, joint ventures between different car

manufacturing companies, captive imports, or simply the practice of selling the same or similar cars in different markets (or even side-by-side in the same market) under different marques or model nameplates.

Mini

Super, Suzuki Alto GL, Daihatsu Domino, Citroën AX 11 RE, Yugo 45 and 55, Peugeot 205 GL, and the Citroën 2CV6. A UK Department for Transport statistics

The Mini is a very small two-door, four-seat car, produced for four decades over a single generation, with many names and variants, by the British Motor Corporation (BMC) and its successors British Leyland and the Rover Group, and finally (briefly) under BMW ownership. Minis were built as fastbacks, estates, convertibles, and various other body styles. Minus a brief 1990s hiatus, from 1959 into 2000, an estimated 5.38 million of all variations combined were built, and the Mini's engines also powered another 2 million Mini Metros, though the Mini eventually outlasted its successor.

Initially, the Mini was marketed under the Austin and Morris names, as the Austin Seven and Morris Mini-Minor; the Austin Seven was renamed Austin Mini in 1962 and Mini became a marque in its own right in 1969. Retrospectively...

Chevrolet

Archived from the original on May 12, 2014. Retrieved March 16, 2013. Megan Haynes (March 27, 2012). "Chevrolet merges creative teams to form global agency"

Chevrolet is an American automobile division of the manufacturer General Motors (GM). In North America, Chevrolet produces and sells a wide range of vehicles, from subcompact automobiles to medium-duty commercial trucks. Due to the prominence and name recognition of Chevrolet as one of General Motors' global marques, "Chevrolet" or its affectionate nickname Chevy is used at times as a synonym for General Motors or its products, one example being the GM LS1 engine, commonly known by the name or a variant thereof of its progenitor, the Chevrolet small-block engine.

Louis Chevrolet (1878–1941), Arthur Chevrolet (1884–1946) and ousted General Motors founder William C. Durant (1861–1947) started the company on November 3, 1911 as the Chevrolet Motor Car Company. Durant used the Chevrolet Motor Car...

List of Equinox episodes

and lean-burn engines; Bernard Bertrand, head of engine development of Peugeot; Shillington of BL; the new EC legislation in 1992 would outlaw lean-burn

A list of Equinox episodes shows the full set of editions of the defunct (July 1986 - December 2006) Channel 4 science documentary series Equinox.
