Machine learning

learning technologies as well, including logician Walter Pitts and Warren McCulloch, who proposed the early mathematical models of neural networks to come

Machine learning (ML) is a field of study in artificial intelligence concerned with the development and study of statistical algorithms that can learn from data and generalise to unseen data, and thus perform tasks without explicit instructions. Within a subdiscipline in machine learning, advances in the field of deep learning have allowed neural networks, a class of statistical algorithms, to surpass many previous machine learning approaches in performance.

ML finds application in many fields, including natural language processing, computer vision, speech recognition, email filtering, agriculture, and medicine. The application of ML to business problems is known as predictive analytics.

Statistics and mathematical optimisation (mathematical programming) methods comprise the foundations of...

Economic history of the United States

the century. Harvesting machine improvements included automatic rakers, which eliminated the manual raker, allowing operation by a single man, and combination

The economic history of the United States spans the colonial era through the 21st century. The initial settlements depended on agriculture and hunting/trapping, later adding international trade, manufacturing, and finally, services, to the point where agriculture represented less than 2% of GDP. Until the end of the Civil War, slavery was a significant factor in the agricultural economy of the southern states, and the South entered the second industrial revolution more slowly than the North. The US has been one of the world's largest economies since the McKinley administration.

Mau Mau rebellion

depicting the predisposition of Africans to episodic mass hysteria." McCulloch 2006, pp. 64–76. Carothers, J. C. (July 1947). "A Study of Mental Derangement

The Mau Mau rebellion (1952–1960), also known as the Mau Mau uprising, Mau Mau revolt, or Kenya Emergency, was a war in the British Kenya Colony (1920–1963) between the Kenya Land and Freedom Army (KLFA), also known as the Mau Mau, and the British authorities. Dominated by Kikuyu, Meru and Embu fighters, the KLFA also comprised units of Kamba and Maasai who fought against the European colonists in Kenya — the British Army, and the local Kenya Regiment (British colonists, local auxiliary militia, and pro-British Kikuyu).

The capture of Field Marshal Dedan Kimathi on 21 October 1956 signalled the defeat of the Mau Mau, and essentially ended the British military campaign. However, the rebellion survived until after Kenya's independence from Britain, driven mainly by the Meru units led by Field...

Timeline of women's legal rights (other than voting) in the 20th century

providers on Guam". Pacific Daily News. 30 June 2018. Retrieved 2019-05-29. McCulloch, Alison (2013). Fighting to Choose: The Abortion Rights Struggle in New

Timeline of women's legal rights (other than voting) represents formal changes and reforms regarding women's rights. That includes actual law reforms as well as other formal changes, such as reforms through new interpretations of laws by precedents. The right to vote is exempted from the timeline: for that right, see Timeline of women's suffrage. The timeline also excludes ideological changes and events within feminism and antifeminism: for that, see Timeline of feminism.

UEFA Euro 2020 Final[edit]

Nominator(s): — Amakuru (talk) 06:48, 8 October 2021 (UTC); The Rambling Man[reply]

This article is about the final of Euro 2020, the football tournament which took place a few months ago (even though it's 2021!). As someone from England, this was a tough one to write about - it was first major final that the team have reached in my lifetime, and with England holding the lead into the second half it looked for while like it...
