Drawing up a comprehensive list
of words in English is important
as a reference when learning a
language as it will show the
equivalent words you need to
learn in the other language to
achieve fluency. A big list will
constantly show you what words
you don't know and what you
need to work on and is useful for
testing yourself. Eventually these
words will all be translated into
big lists in many different
languages and using the words in

phrase contexts as a resource.
You can use the list to generate
your own lists in whatever
language you're learning and to
test yourself.
